CFA # _____

Applicant _____ **Facility** _____

Completing the Commercial Refrigeration, Ice Makers & Accessory Equipment Measure Worksheet

- Fill in the appropriate fields for individual refrigeration measures on page 2 through 4 and select the type of HVAC system used in your facility in the HVAC System Type Selection Table.
- To calculate the **Total Incentive** for each measure, multiply the **Count** (quantity of installed equipment) (A) by the **Unit Incentive (B)** and enter this amount in the **Total Incentive** column.
- Add these **Total Incentive** amounts together for the **Total Incentive Requested** amount on the last line.
- Enter the **Total Incentive Requested** amount below.
- Complete a Consolidated Funding Application: www.nyserda.ny.gov/Funding-Opportunities/ConsolidatedFunding-Application.
- Submit your CFA online along with copies of the following. Be sure to reference your CFA number on all submitted materials:
  1) This completed worksheet and any other measure worksheets associated with your project.
  2) Electric utility bill from the last 90 days, with SBC notation.
  3) Invoices, including purchase and installation price.
  4) Equipment specification sheets showing manufacturer(s) and model number(s).

General Eligibility Requirements for Commercial Refrigeration, Ice Makers & Accessory Equipment

- Pre-Qualified projects must submit an application for incentives within 90 days of invoice for the purchase and installation of Pre-Qualified measures.
- Used or rebuilt equipment is not eligible.
- ENERGY STAR® requirements for commercial refrigerators and freezers are located at: http://www.energystar.gov/index.cfm?fuseaction=find_a_product.showProductGroup&pgw_code=CRF.
- ENERGY STAR® requirements for commercial ice makers are located at: http://www.energystar.gov/index.cfm?fuseaction=find_a_product.showProductGroup&pgw_code=CIM.
- Questions regarding the process, incentives, or requirements? Contact a NYSERDA representative at: 1-866-NYSERDA x3480 or EFPPQADMIN@NYSERDA.ny.gov.

Individual Commercial Refrigeration, Ice Makers & Accessory Equipment Incentive Totals

Commercial Electric Refrigeration Equipment *(from page 2)* . . . . . $ _____

Commercial Ice Makers *(from page 3)* . . . . . $ _____

Electrically Commutated Motors *(from page 4)*. . . . . $ _____

Anti-Sweat Heater Controls *(from page 4)* . . . . . $ _____

Refrigerated Case Night Covers *(from page 4)* . . . . . $ _____

Grand Total Commercial Refrigeration, Ice Makers & Accessory Equipment Incentive Requested . . . . . $ 0.00

Project Cost Information (Required)

Total cost of materials and labor for installed commercial refrigeration equipment . . . . . Total $ _____

Project Type *(Please check one)*

☐ New Construction or Major Renovation

☐ Replacement or Retrofit (Existing Facilities)

Commercial Electric Refrigeration Incentive Table

General Qualifications:
- **All Units must be ENERGY STAR®-qualified**
- **Reach-in units only; walk-in units may be eligible through the Performance-Based programs**

Measure Code	Description	Volume	Unit Incentive
RS-1	Stand-up refrigerator with a solid door	<15 cubic feet	$75
RS-2		16-30 cubic feet	$100
RS-3		31-50 cubic feet	$150
RS-4		>50 cubic feet	$225
RG-1	Stand-up refrigerator with a glass door	<15 cubic feet	$100
RG-2		16-30 cubic feet	$150
RG-3		31-50 cubic feet	$200
RG-4		>50 cubic feet	$275
RC	Refrigerator chest with glass or solid door	any size	$50
FS-1	Stand-up freezer with a solid door	<15 cubic feet	$100
FS-2		16-30 cubic feet	$200
FS-3		31-50 cubic feet	$325
FS-4		>50 cubic feet	$500
FC	Freezer chest with glass or solid door	any size	$75

HVAC System Type Selection Table

From the list below, please select the type of HVAC system that serves the space in which these refrigerators will be installed. If none apply, select "Other" and briefly describe the system used.

- ☐ No heating or cooling
- ☐ AC with gas heat
- ☐ Heat pump
- ☐ AC with electric heat
- ☐ Electric heat only
- ☐ Gas heat only
- ☐ Fan coil with chiller and hot water boiler
- ☐ Steam heat only
- ☐ Constant volume system with no economizers
- ☐ Constant volume system with economizers
- ☐ Variable air volume system with economizers
- ☐ Water cooled ammonia screw compressors
- ☐ Other: _____

_____

Commercial Electric Refrigeration Equipment

Measure Code	Manufacturer	Model Number	Volume (cubic feet)	A Count	B Incentive/Unit (from table above)	Total Incentive (A x B)
Example: FS-2	*Company*	*XX-XX*	*28*	*2*	*$200*	*$400*
						0.00
						0.00
						0.00
						0.00
						0.00
						0.00
(enter on page 1)					**Total Commercial Electric Refrigeration Incentive Requested**	$ 0.00

Commercial Ice Makers Incentive Table

General Qualifications:

- **All Units must be ENERGY STAR®-qualified**

Measure Code	Description	Harvest Rate	Unit Incentive
IMH-1	Ice-making head	< 450 lbs/day	$75
IMH-2		≥ 450 lbs/day	$150
RCU-1	Remote condensing unit	< 1,000 lbs/day	$100
RCU-2		≥ 1,000 lbs/day	$175
SCU-1	Self-contained unit	< 175 lbs/day	$75
SCU-2		≥ 175 lbs/day	$150

HVAC System Type Selection Table

From the list below, please select the type of HVAC system that serves the space in which these ice makers will be installed. If none apply, select "Other" and briefly describe the system used.

- ☐ No heating or cooling
- ☐ AC with gas heat
- ☐ Heat pump
- ☐ AC with electric heat
- ☐ Electric heat only
- ☐ Gas heat only
- ☐ Fan coil with chiller and hot water boiler
- ☐ Steam heat only
- ☐ Constant volume system with no economizers
- ☐ Constant volume system with economizers
- ☐ Variable air volume system with economizers
- ☐ Water cooled ammonia screw compressors
- ☐ Other: _____

_____

Commercial Ice Makers

Measure Code	Manufacturer	Model Number	Harvest Rate (lbs/day)	A Count	B Incentive/Unit (from table above)	Total Incentive (A x B)
Example: IMH-2	*Company*	*XX-XX*	*500*	*3*	*$150*	*$450*
						0.00
						0.00
						0.00
						0.00
						0.00
						0.00
		(enter on page 1)			**Total Commercial Ice Makers Incentive Requested**	$0.00

Accessory Equipment Incentive Table

Measure Code	Measure Description	Eligibility Criteria	Unit Incentive
ECM	Electrically Commutated Motors	Must install ECM to replace shaded pole refrigerated case motor	$85/unit
ASHC	Anti-Sweat Heater Controls	Must install controls on an existing anti-sweat heater as part of a glass-door freezer or cooler	$100/unit
RCNC	Refrigerated-Case Night Covers	Must install covers on refrigerator and freezer cases that are typically open to the air and in a facility that is closed at night	$3/ft

Electrically Commutated Motors

Measure Code	Manufacturer	Model Number	Demand Watts	A Count	B Incentive/Unit (from table above)	Total Incentive (A x B)
Example: ECM	*Company*	*XX-XX*	*207 W*	*2*	*$85*	*$170*
						0.00
						0.00
(enter on page 1)					**Total Electrically Commutated Motors Incentive Requested**	$0.00

Anti-Sweat Heater Controls

Measure Code	Manufacturer	Model Number	Demand Watts	A Count	B Incentive/Unit (from table above)	Total Incentive (A x B)
Example: ASHC	*Company*	*XX-XX*	*75 W*	*3*	*$100*	*$300*
						0.00
						0.00
(enter on page 1)					**Total Anti-Sweat Heater Controls Incentive Requested**	$0.00

Refrigerated-Case Night Cover

Measure Code	Manufacturer	Model Number	Operating Temperature (˚F)	A Width of Cover (ft)	B Incentive/Unit (from table above)	Total Incentive (A x B)
Example: RCNC	*Company*	*XX-XX*	*15˚F*	*200 ft*	*$3/ft*	*$600*
						0.00
						0.00
(enter on page 1)					**Total Refrigerated-Case Night Cover Incentive Requested**	$0.00
