Electric Vehicle Supply Equipment (EVSE) Demonstration Program

Program Opportunity Notice (PON) 2301
Approximately $4 Million Available

Summary of Revisions

- Round 2 is now due August 22, 2012 at 5:00 PM.
- The amount of the eligible costs that applicants in Categories A, B, and C are eligible to receive from NYSERDA is now 65% for all categories (see Section 1.0).
- The description of innovative technologies that could be incorporated into the project, as listed in Section 1.1, has been clarified to state that other innovative applications, locations, or business models other than those listed are acceptable.
- In the first round of the program, Level III EVSE were not eligible for funding. Because the Society of Automotive Engineers is in the process of finalizing its Level III standard, some Level III EVSE may be eligible for participation in the program under certain conditions. Also, the PON was clarified to explain that only EVSE that serve on-road vehicles are eligible (see Section 1.1).
- EVSE for medium- and heavy-duty fleets may propose to use EVSE that have pending UL certifications under certain conditions (see Section 1.1).
- The required number of EVSE per site has been clarified (see Section 1.1).
- Data collection requirements are now explained in full detail. (see Sections 1.1 and 1.4).
- Proposers only need to submit one (1) hard copy of the proposal (see Section 2.0).
- The descriptions of the required elements for the Proposal Narrative, Budget, and Proposal Evaluation have been explained in greater detail and modified to reflect the above changes..
- Added Attachment E – Proposal Overview Form, which is required as part of the proposal.
