

Proposals Due: May 15, 2012 by 5:00 PM Eastern Time\*

**Program Summary:** NYSERDA is seeking a facilitation expert to coordinate the work of the West Valley Citizen Task force (CTF), provide logistical support in anticipation of regular CTF meetings, facilitate meetings in a collaborative manner that shares information to achieve consensus, compile meeting summaries and information, and maintain effective working relationships within the CTF and the agencies. Close collaboration with all of the CTF members and agency representatives is essential to assure continued success of the CTF process.

The Task Force has been meeting for 14 years, providing advice to NYSERDA and the U.S. Department of Energy (DOE) regarding cleanup and long-term management of facilities located at the Center. The Center is home to the West Valley Demonstration Project, a large nuclear waste cleanup project being conducted by DOE, and a shut-down radioactive waste disposal facility managed solely by NYSERDA.

**Proposal Submission:** Proposers must submit seven copies of the proposal with a completed and signed Proposal Checklist attached to the front of each copy, one of which must contain an original signature. Proposals must be clearly labeled and submitted to:

## I. Introduction

**A. Background** - In March 1996, NYSERDA and the U.S. Department of Energy (DOE) issued a Draft Environmental Impact Statement (DEIS) for public comment which focused on evaluating closure options for the future management of facilities at the Center. During the development of the DEIS, NYSERDA perceived a need for broader public participation, above and beyond the public comments on the DEIS, to help in the development of a closure option for the Center. Forming a community advisory group seemed to be the best way to ensure that the issues and concerns of the community were understood. To make this a reality, NYSERDA, along with the support of DOE, initiated the formation of the West Valley Citizen Task Force. An independent facilitation contractor was hired to assist NYSERDA in convening the group and provide facilitation and coordination of its deliberations.

The West Valley Citizen Task Force held its first meeting in late January 1997. In July 1998, NYSERDA and DOE received the Task Force's Final Recommendations Report on its policies, priorities, and guidelines for the clean up, closure, or long-term management of the Center. Since 1998, the Task Force has met regularly to discuss a variety of issues regarding facility closure and long-term management of the Center. The mission of the Task Force has expanded into other areas including future site use, long-term stewardship, and regulatory issues. The group has provided several sets of comments to the U.S. Nuclear Regulatory Commission on its policy statement on the decontamination and decommissioning criteria for West Valley. The Task Force is also active in keeping the Congressional Representatives from the Western New York Region informed about the ongoing issues at the West Valley Site.

Responsibilities of the independent facilitator have included coordinating and facilitating CTF meetings, preparing written meeting summaries, convening and maintaining CTF membership, and fostering good working relationships with, and between, each CTF member. On several occasions, the CTF members have been asked if they would like to discontinue the services of the independent facilitator. The group has consistently objected to this idea, adding that the facilitator has been a key part of the success of the CTF process. Though the current facilitator is performing well and an important part of the group's success, NYSERDA believes it is important to offer other consultants with similar expertise the opportunity to bid on these services.

Additional background information about the Western New York Nuclear Service Center can be found in Attachment D. Additional information about the CTF can be found on the Task Force website ([www.westvalleyctf.org](http://www.westvalleyctf.org)).

**B. Goals and Objectives** - The New York State Energy Research and Development Authority (NYSERDA) is seeking proposals for facilitation services to support the West Valley Citizen Task Force near the Western New York Nuclear Service Center in West Valley, NY. The Task Force has been meeting for fourteen years, providing advice to NYSERDA and DOE regarding cleanup and long-term management of facilities located at the Center. Continued success of the CTF will be, in part, dependent on securing the services of a highly-qualified, professional facilitator with experience in group facilitation.

## II Program Requirements

**A. Scope of Work** - NYSERDA is seeking a facilitator to assist the West Valley Citizen Task Force (CTF) in its deliberations and communications with the site managers.
