Monthly Billing

**What is it?** A payment plan that allows customers to evenly spread out their energy costs over 12 months.

**How is it calculated?** By adding up the utility costs for the year and dividing it by 12.

**How does it work?** The monthly bill amount will be the same for 11 months, and on the 12th month, the bill is adjusted (either plus or minus) to reflect payments and actual usage charges for the year.
Payment Agreements

When a financial hardship makes it difficult to pay the bill in full, we will work with the customers to develop a deferred payment agreement.

- Based on their ability to pay by completing a financial statement
- Past-due amount can be paid in monthly installments
- Current bills are due in full and on-time
What is it? A temporary utility payment assistance program that can help low-income customers pay off their past-due balance while staying current with future monthly budget bills.
Who is eligible to participate?

Customers meeting all of the following requirements:

- Have a past due balance of at least $100
- Use (and pay for) Central Hudson natural gas or electricity as a primary heating source
- Enroll in Monthly Billing
- Meet HEAP income guidelines and receive a HEAP benefit toward their Central Hudson account each year
- Can pay a discounted budget bill each month in full and on time
How Can POP Help?
