

2017 RESIDENTIAL ENERGY EFFICIENCY PROGRAM MEASURES ON LONG ISLAND by Heat Source*												
MEASURES	No Cost to Customer							Cost Share with Customer				
	DOE WAP** (12)	County Adm. HEAP (12)	PSEG REAP (13)	National Grid's Home Energy Affordability Team (12)	PSEG's Enhanced HPWES (9)	PSEG Home Performance Direct Install	NYSERDA's EmPower NY for municipal electric customers (14)	PSEG HPWES (11) & Assd. HPWES (10)	PSEG Rebates	National Grid Rebates	PSEG Financing	NYSERDA Financing
Audit	all fuels		all fuels (1)	natural gas	all fuels	electric	municipal electric customers only	all fuels				municipal electric customers only
WEATHERIZATION												
Air sealing (walls, floor, ceiling, sink)	all fuels			natural gas	oil, propane & electric		oil & propane	all fuels (2)			all fuels (2)	oil & propane
Attic and wall insulation, or basement, band joist and crawl space	all fuels			natural gas	oil, propane & electric		oil & propane	all fuels (2)			all fuels (2)	oil & propane
Assess insulation levels by probing the walls, inspecting the attic or roof insulation, and measuring the home.	all fuels			natural gas	oil, propane & electric	electric	oil & propane	all fuels (2)				
Hot water pipe insulation	all fuels		electric (3)	natural gas	oil, propane & electric		oil & propane	all fuels (2)		natural gas	all fuels (2)	oil & propane
Weather stripping (windows and doors)	all fuels			natural gas	oil, propane & electric		oil & propane	all fuels (2)			all fuels (2)	
Duct sealing	all fuels			natural gas	oil, propane & electric	electric	oil & propane	all fuels (2)			all fuels (2)	oil & propane
Duct Insulation	all fuels			natural gas	oil, propane & electric			all fuels (2)			all fuels (2)	oil & propane
Broken window repair	all fuels			natural gas (6)			oil & propane					
Broken outside door repair	all fuels			natural gas (6)			oil & propane					
Distribution Improvements	all fuels				oil, propane & electric		oil & propane	all fuels (2)			all fuels (2)	oil & propane
HEALTH AND SAFETY												
Health & safety check (CO measurement)	all fuels		all fuels	natural gas	oil, propane & electric	electric	oil & propane	all fuels (2)				
CO detector installation	all fuels			natural gas			oil & propane				all fuels (2)	all fuels
Check for gas leaks if natural gas or propane are in use at the dwelling.	all fuels		all fuels	natural gas (4)	oil, propane & electric	electric	oil & propane	all fuels (2)				
Exhaust unvented clothes dryers	all fuels			natural gas								
Asbestos abatement, radon & lead abatement, mold removal, tank removal, gas leak repair, ventilation fans, dryer vent repair, attic stairs, thermal barriers for spray foam, air cleaners, chimney liners, etc.(5)				natural gas (6)			oil & propane heat. Only in combination with efficiency measures (6)	all fuels (2)			all fuels (2)	all fuels
HEATING & COOLING												
Heating system repair, replacement, tune-up	all fuels			natural gas	oil, propane & electric		oil & propane	all fuels (2) no oil to gas conversions			all fuels (2) no oil to gas conversions	
Boiler replacement	all fuels	all fuels		natural gas (6)	oil, propane & electric - no oil to gas conversions			all fuels (2) no oil to gas conversions		natural gas	all fuels (2) no oil to gas conversions	oil & propane
Boiler reset controls	all fuels			natural gas	oil, propane & electric			all fuels (2)		natural gas	all fuels (2) no oil to gas conversions	oil & propane
Central air conditioning (split system replacement, air source heat pump or ground source heat pump.									all fuels		all fuels (2) no oil to gas conversions	all fuels
Cleaning and repair of heating equipment; conduct a combustion efficiency test	all fuels	all fuels		natural gas	oil, propane & electric			all fuels (2)			all fuels (2) no oil to gas conversions	oil & propane
Furnace replacement	all fuels			natural gas (6)	oil, propane & electric - no oil to gas conversions			all fuels (2) no oil to gas conversions		natural gas	all fuels (2) no oil to gas conversions	oil & propane
Oil to gas conversions				natural gas (6)						oil/propane to gas if in gas customer territory		all fuels
Water heater replacement (electric, propane, oil, indirect fired)	all fuels			natural gas (6)	oil, propane & electric - no oil to gas conversions			all fuels (2) no oil to gas conversions		natural gas	all fuels (2) no oil to gas conversions	oil & propane
EQUIPMENT												
Air purifiers									all fuels			all fuels
Clothes washers									all fuels			all fuels
Dehumidifiers replacement			all fuels						all fuels			all fuels
Electric or Heat Pump clothes dryer replacement									all fuels			
Evaluate need for high efficiency (low-flow) showerheads and shower aerators, and install if needed	all fuels		electric (3)	natural gas		electric	oil & propane					all fuels
Exhaust unvented clothes dryers	all fuels			natural gas								all fuels
Faucet aerators			electric (3)	natural gas		electric					all fuels (2)	oil & propane
Light bulbs	all fuels		all fuels			electric			all fuels (7)			all fuels
Pool pumps									all fuels			
Refrigerator replacement	all fuels		all fuels						all fuels			all fuels
Smart strips/ Advanced Power Strips						electric			all fuels			
Stoves & gas clothes dryers				natural gas (6)								
Thermostat replacement	all fuels			natural gas	oil, propane & electric		oil & propane	all fuels (2)		natural gas (wifi only)	all fuels (2)	oil & propane
Thermostatic radiator valves	all fuels									natural gas		
Window AC replacement			all fuels (8)						all fuels			all fuels
BEHAVIORAL												
Customer outreach and education	all fuels		all fuels	natural gas	all fuels	electric	oil & propane	all fuels			all fuels (2)	
Check hot water temperature	all fuels		all fuels	natural gas		electric	oil & propane					
Adjust thermostat setting	all fuels		all fuels	natural gas			oil & propane					

* All programs for single family homes only, though some programs may cover multi-family also. See individual program details. "All fuels" refers to homes with primary heat source being gas, oil, propane, or electric.

** Weatherization Assistance Program (WAP) is administered through NYS Homes and Community Renewal (NYSHCR) and funded through the US Dept. of Energy and Dept. of Health and Human Services (LIHEAP).

Notes:

1. Walk through only.
2. Except natural gas customers without central air conditioning.
3. For electric hot water heaters only.
4. Plus leak repair.
5. See 2017 Eligible Measures & Accessories List provided by PSEG LI.
6. Case by case/emergency
7. See separate PSEG-LI eligible lighting information for details at PSEGLINY.com.
8. Up to two units.
9. 100% rebate on eligible measures capped at \$4,000. Income eligibility requirement is 60% of State Median Income (SMI)
10. 50% rebate on eligible measures capped at \$4,000. Income eligibility requirement is 80% of Area Median Income (AMI).
11. 15% rebate on eligible measures capped at \$3,000.
12. Income eligibility requirement is 60% of SMI
13. Income eligibility requirement is 70% of AMI.
14. Very limited funds available to municipal electric customers only. First come, first served.
