GENERAL RECOMMENDATIONS

How could we improve the next EMEP conference in terms of content, format, or logistics?

Given the breadth of the current EMEP programs, NYSERDA is considering a 2½ - 3 day conference to accommodate all of the targeted research topics and the speakers required to address these topics. Would you attend a longer conference?

Do you have any specific recommendations for future directions of the New York Energy SmartSM Environmental Research Program?

Please attach any additional comments on a separate page or send them via email to emep@nyserda.org

THANK YOU!
