

Program Questions: Cleaner Greener Communities (CGC), Phase II Implementation Grants, Category 3: Community-Scale Sustainability Projects - Round 3 (CFA Round 5)

Q_4149

Is the applicant seeking between \$500,000 and \$3 million in funding to implement a community-scale sustainability project that is innovative and transformational in its contribution to advancing sustainable development; that supports energy efficiency, renewable energy, or carbon mitigation; and that fits into one of the following two project type definitions? 1. Showcase or anchor construction projects that deliver one or more key elements of a defined sustainable neighborhood development effort. To be eligible, the effort must: (i) be either a project(s) identified as part of an approved neighborhood master plan that consists of several buildings OR an actual development project that consists of several buildings; (ii) meet prerequisites (see prerequisites in the Cleaner Greener Communities Guidance Document) for smart location, walkable streets, compact development, neighborhood connections, and green infrastructure and buildings; AND (iii) demonstrate that the project strategy has the potential to lead to replication or other spill-over effects. 2. Innovative projects or programs that either: (i) facilitate, develop, or expand a private-sector business model targeting delivery of community-wide clean energy services or sustainability projects as described in number 1 above; OR (ii) utilize innovative and well integrated community engagement or aggregation strategies to accelerate community-wide demand for clean energy projects or services. Eligible applicants must demonstrate their program's ability to affect or deliver impact at community scale, and how their program will facilitate the development of self-sustaining mechanisms for the applicable clean energy installations or services, or sustainability projects as described in number 1 above. Applicants that respond "no" to this question are not eligible for Cleaner Greener Communities Round 3 funding.

Q_4146

With respect to the Cleaner Greener Communities (CGC) program objective of 'Leverage Cleaner Greener Communities Funds,' a minimum cost-share of 25% of Total CGC Project Cost is required to be eligible for this program. For example, if an applicant requests \$750,000 from NYSERDA, the applicant must also commit a minimum cost share of \$250,000, for a total minimum project cost of \$1,000,000. Cost share may include private equity, private or federal grants, loans, in-kind or volunteer services documented in dollar value, or other non-New York State (NYS) government funding sources, but NYS government funding cannot be included. Will this project include at least a 25% cost share? Applicants that respond 'no' to this question are not eligible for Cleaner Greener Communities Round 3 funding.

Q_3766

Is this a Global NY Project?

- Question Type: Basic
- Required: Yes
- Answer Type: Yes/No

- Help Text:

In REDC Round IV, applicants may link project proposals to identified goals of their region's Global Marketing and Export Strategies through the Global NY initiative. REDCs will classify priority and other projects that serve to fulfill export growth objectives as outlined in their plans.

More Global NY information:

“Global NY”— to Create Jobs and Attract International Investment

Upstate NY was once a national leader in international trade and investment, and it can be again. Governor Cuomo will launch Global NY to accomplish two complementary economic growth objectives: attracting international investment and jobs to Upstate New York and providing New York businesses with the tools and assistance they need to export their products to the international marketplace.

Global NY links the Governor's START-UP NY and Regional Economic Development Council initiatives. Through START-UP NY, the State has the opportunity to offer the powerful incentive of operating tax-free to attract global companies seeking to expand in the United States. The Regional Economic Development

Councils hold the key to developing a 21st century export strategy based on each region's resources, assets and goals. New Yorkers depend on world markets. The state's export shipments in 2012 totaled \$81.4 billion, putting New York in the top three exporting states. Foreign investment and export-supported jobs linked to

manufacturing account for close to 10 percent of New York's total private-sector employment, and more than 40,000 companies export from New York ports of entry..Of those, nearly 95 percent are small and medium-sized enterprises with fewer than 500 employees; most are exporting high-tech products and

other manufactured goods to growing and well established markets such as Canada (the state's top export partner), Hong Kong, the United Kingdom, Switzerland, Israel, Germany, and Mexico. New York's strength in merchandise export performance relies on strong regional economies. While New York's #3 ranking among exporting states is impressive, the *New NY* can do even better.

REDCs Go Global: Regional Export Strategies

In 2014, the REDCs will be asked to develop and implement Global Marketing and Export Strategies, building foreign trade and investment approaches into their strategic regional planning efforts and thinking about how to improve efforts to “go global.” The State will recognize and reward plans in REDC Round 4 that incorporate Global Marketing and Export Strategies. These strategies should be supported by detailed assessments of international commerce activity and identify new export opportunities while placing emphasis on regional economic supply chain strengths, such as advanced manufacturing and hightech services. Export markets are regional, and the Regional Economic Development Councils are ideally suited to reflect this reality. Widening the geographic lens in trade strategy development will allow REDCs to position their markets to better compete globally by assembling and aligning all related regional assets, such as key employers, top industries, workforce, higher education institutions and transportation infrastructure.

Some regions are already leading the way. For example, Central New York—anchored by the Syracuse metropolitan area—has benefited from a partnership with the Brookings Institution that resulted in a coordinated regional Export Plan.

Q_4156

Please attach, in the form of a single .pdf file, a proposal (maximum of 5 pages, not including the below listed required appendices or any additional information necessary demonstrate to NYSERDA that the project meets the selection criteria outlined below such as conceptual sketches of the proposed plan, project, or development; preliminary certification program (i.e. LEED ND) review checklists; engineering or other reports substantiating expected project performance metrics; etc.) outlining how your project will accomplish all of the goals of one of the eligible project types listed under Category 3 of the Cleaner, Greener Communities program. Please also describe how the project meets the selection criteria outlined below. The goals and selection criteria are explained in more detail in the Cleaner Greener Communities Guidance Document. Selection Criteria: ? Stimulate Market Transformation ? Support Clean Energy and Sustainable Development Projects or Services ? Create Regional and Community Benefit ? Leverage CGC Funds ? Reduce Carbon Emissions ? Preferred Eligible Project Types ? Electric Vehicle Market Development Project Types Please also include the following additional documents as appendices to your proposal, all of which are required documents: ? Statement of Work: Attach a Statement of Work (SOW), modeled after the SOW Template (see Help section) and including all information referenced in it. The SOW should explain the full scope of the proposed project and all specific corresponding tasks, delineating the portion of the scope specifically related to the request for Cleaner Greener Communities funding. Applications that do not include a SOW in their proposals with complete information in the format requested will be deemed ineligible. ? Resumes: Attach one-page (front side only of a single 8.5"x11" page) resumes for each critical team member. Identify the Project Manager. Include a single cover sheet outlining (narrative or graphical representations are both acceptable) the roles of each critical team member. ? Signed Letters of Financial Commitment: Attach all signed letters of commitment, including

dollar amounts, from all parties contributing toward the cost-share. Cost share documentation should include the amount of the cost share and how the amount was calculated. For example, if the cost share is all in-kind contribution, the calculation would be the staff working on the project and the estimated number of hours, multiplied by the hourly rate to get the total amount. The cost share may include capital costs of equipment, labor costs (direct, in-kind, volunteer, or subcontracted), or cash contributions from other non-NYS government funding sources. ? Signed Letters of Support: Attach all signed letters of support, on official letterhead, from the community within which the project will be located or the community that the project will affect, and from other relevant entities that have legal authority regarding either project approvals or plan adoption resolutions, or that will be affected in any significant way by the project. If the project affects multiple communities or entities, include letters from all affected communities and entities in a single .pdf file with a Table of Contents. Letters of support received after submission of this application will not be considered. ? CPPF: Attach a completed Contract Pricing and Proposal Form (CPPF) to outline the budget for the project. A separate CPPF form is required for each subcontractor included in the application. Include supporting information to verify overhead rate(s).

Q_4350

One of the objectives of the Cleaner Greener Communities Program is ?Create Regional and Community Benefit? and to ?Reduce Carbon Emissions.? NYSERDA will require that successful proponents estimate and track benefits during implementation. All proponents should submit as an attachment a CGC Project Benefits Metrics Report following the format and content requirements in the CGC Project Benefits Metrics Report Template. All projects must directly or indirectly reduce GHG emissions. Proponents should also identify metrics to show how the project will meet the goals in the

Regional Sustainability Plan (RSP). NYSERDA specifically encourages proponents to demonstrate how projects will transform communities and will increase benefits both now and in the future. Benefits may grow from a project's intent to scale or potential to be replicated, or by creating indirect economic development, job creation, GHG savings, and other benefits in communities. For example, neighborhood redevelopment with LEED-ND principles will attract investment, jobs, and reduce energy use and GHG emissions among residents and businesses through compact development. Investment in sustainable businesses and programs will compound with market transformation. Investment in public policy and planning may grow benefits by reducing barriers to sustainability. The CGC Project Benefits Metrics Report (PBMR) should be limited to 5 pages; additional pages will not be considered. Unrequested attachments or addendums will not be considered as part of this application and should not be included.

Please refer to the CGC Guidance Document and the CGC Project Benefits Metrics Report (PBMR) Template. Also refer to the guiding questions in the applicable (Category 2 or 3, depending on project type) Selection Criteria section of the Cleaner Greener Communities Guidance Document, for help in responding to this question. The document can be accessed at <http://www.nysERDA.ny.gov/cgc>. Applicants do not need to respond to every guiding question and are encouraged to use other descriptions to demonstrate how their initiative meets each objective.

Q_4153

Does the applicant accept all of the Sample Terms and Conditions for the Cleaner Greener Communities Program? If 'no,' please attach a marked-up (or track changes) copy of the Sample Category [2 or 3] Terms and Conditions (as applicable to your project type), indicating how they would need to be altered in order for the applicant to accept them. Any future changes requested outside of those included in this submission may not be considered. If yes, simply skip this question.

Is the project located in a Climate Smart Community?

- Question Type: Standard Question
- Required: Yes
- Answer Type: Single Choice Dropdown
- Choice Options: yes,no
- Help Text:

Please only answer 'yes' to this question if the project is located in a Climate Smart Community (CSC) that has jurisdiction or control over the project or project area. For example, an applicant with a project being built or

implemented in a village that is not a CSC, but that village is in a county that is a CSC, should NOT respond yes to this question. However, if a project is controlled by, or located on land owned by the county, then the county being a CSC would suffice and the applicant should respond 'yes' to this question. A list of Climate Smart Communities can be found here: www.dec.ny.gov/energy/56876.html
