

Applications accepted continuously through December 29, 2017 by 5:00 PM Eastern Time*

Summary of Revisions

1. The RFP has been renamed “New Construction and Codes Partner Services.”
2. The RFP has been revised to invite firms wishing to deliver design and technical assistance, high quality energy modeling and analysis, and quality assurance services to NYSERDA’s Commercial, Multifamily, and Low-rise Residential New Construction Programs to apply.
3. Partners providing these services to the Commercial New Construction Program will be considered eligible modeling entities under [PON3308: Commercial Tenant Program](#).
4. The technical criteria for Applicants wishing to provide support services to the Commercial New Construction program has been modified such that sample projects must demonstrate energy cost savings that exceed ASHRAE 90.1-2007 Appendix G by at least 25%. The technical criterion to be considered as a Deep Energy Savings or Zero-Net-Energy technical services provider has been removed, however Applicants are encouraged to submit sample projects that demonstrate the ability of the firm to influence Deep Energy Savings or Zero-Net-Energy projects. Applicants who provide sample projects with energy cost savings that exceed ASHRAE 90.1-2007 Appendix G by at least 40% will be identified by NYSERDA’s website as capable of providing Deep Energy Savings and Zero-Net-Capable technical services.
5. The technical criteria have been modified to add the requirements for the Multifamily and Low-rise Residential New Construction Programs.
6. Applicants wishing to provide services to the Multifamily New Construction Program may submit Passive House projects that meet the technical criterion contained herein.
7. Attachment B: New Construction and Codes Partner Services Application has been modified to allow Applicants to choose to provide services to any or all of the New Construction Programs. The Application also identifies steps to be taken by previously approved Energy Modeling Partners and Low-rise Residential New Construction Providers who wish to work in the other Programs.
8. Attachment E: Sample Agreement and Statement of Work has been modified to remove the sample Task Work Order, modify the Statement of Work, and add exhibits that include the processes, terms and conditions for all three New Construction Programs.
