

Low-rise Residential New Construction Program Qualification Form

This Form Must Be Completed Electronically By a NYSERDA Partner-Rater

Building Address Unit # Project Name

ENERGY STAR Reference Design Package, OR Performance Path ACH50 HERS Index

No CAC Installed ENERGY STAR CAC NON ENERGY STAR CAC Quantity: Size(s) (tons) SEER(s) EER(s)

Heat Pump Quantity SEER(s) EER(s) HSPF (air source) COP (ground source)

Duct Sealing All Ductwork & Air Handlers in Conditioned Space Ventilation Rates Required Ventilation Delivered Residential Associated Common Area (SF)

Rater: Thermal Enclosure Checklist Complete **Rater:** Combustion Safety Testing Complete **Builder:** Water Management Checklist Complete **Rater:** HVAC Checklist Complete **Contractor:** HVAC Checklist Complete

Building Type Stated on Building Permit: Date

<p><small>New York's Energy Code (Section 404.1 NYS ECCC 2010) requires a minimum of 50 percent of lamps in permanently installed lighting fixtures to be high-efficacy lamps. Lamps counted toward the Code requirement cannot be included in the project's above code savings. Enter the total number of permanently installed lamps in the Dwelling Unit in the table to the right. Please then enter the total number of CFL (screw and pin based) and LED lamps installed in the Dwelling Unit in the Dwelling Unit kWh Savings Table below, and the total above code savings will be automatically calculated.</small></p>	Total Lamps in Entire Dwelling	Total Lamps in High Use Areas	Minimum Code-Required High Efficacy Lamps

Dwelling Unit kWh Savings Above Code Calculator

ENERGY STAR Qualified Equipment	Savings (kWh/Year)	Quantity								Total Savings Above Code Requirement
Please Indicate the Number of CFLs & LEDs installed in these high-use areas (including within Ceiling Fans):		Living/Dining	Bed Rooms	Baths	Kitchen	Other High Use Interior	Garage	High Use Exterior	Total Non-High Use	
CFLs										
LEDs										
Pin-Based Fixture										
LED Fixture										
Refrigerator										
Freezer										
Dishwasher										
Clothes Washer										
CAC 16 SEER + 13 EER +										
ECM Motors *refer to M.P.S. for requirements										
Total Above Code Savings for ENERGY STAR Lighting & Appliances (750 kWh Required; 950 kWh for Model & Display)										

Minimum above-code kWh savings requirement does not apply because all appliances, lamps and permanently installed fixtures in high use locations as noted above are ENERGY STAR-qualified.

I certify that the subject unit has met all of the requirements of the EPA's ENERGY STAR® Certified Homes Partnership Agreement and NYSERDA's Minimum Performance Standards, and that I am a NYSERDA Partner Rater.

Certified Home Energy Rater Signature: Date
