<th>Pedestal or wall-mounted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of Ports</td>
<td>Single</td>
</tr>
</tbody>
</table>
| Intended Installation Setting       | • Public  
• Workplace  
• Multi-Unit Dwelling |
| Networking Capability               | Networked                |
| Indicate whether the equipment uses an open standard protocol as a basic framework for purposes of network interoperability and for communication with the network services provider, and specify the protocol (such as OCPP) | OCPP 1.6 |
| Network providers used to date      | • Siemens  
• EVGateway  
• EV Connect  
• Greenlots |
| Input Power (kW AC)                 | 11.5 kW                  |
| Rated Output Power (kW AC)          | 11.5 kW                  |
| Can the equipment split power between multiple ports? | N/A                      |
| Dimensions (HxWxD, in inches)       | 16.1” x 7.1” x 3.8”      |
| Charging cable length (in feet)     | 20’                      |
| Operating temperature range         | -31F to 122F             |
| Is the equipment ENERGY STAR® certified? | No                     |
| If no, do you have a Partnership Agreement with Energy Star®? | Yes                    |
| Does the equipment have a display screen? | No                     |
| Method(s) of Payment Accepted       | • Network RFID Tag  
• Mobile Phone App |
| How do customers purchase the equipment? | • From the Network Providers  
• From Third Party Distributors |
| Warranty Duration (months)           | 36 months                |
**Special Features Included in the Equipment**

Modbus communications thru serial or Ethernet allows connection to building management systems.

---

**Optional Accessories**

- Pedestal (Single or Dual)
- Cable Retraction
- Extended Warranty to 5-years

**Optional Services**

- Cloud Services (CONNECT- basic management; CHARGE - billing; CONTROL - load management)
- Building Management System Integration
- Technical Support;

---
