REQUEST FOR PROPOSALS RESRFP19-1

Renewable Energy Standard Program
Purchase of Renewable Energy Certificates

RESRFP19-1
Proposers’ Webinar

May 2, 2019
Agenda

• Background

• RESRFP19-1 Overview
  – New Items & Important Notes
  – NY Green Bank Informational Webinar
  – Step One Resource Eligibility Determination
  – Step Two Application for Qualification
  – Notice of Qualification
  – Step Three Bid Proposal
  – Awards
  – Contractual Requirements

• Q & A
Background

Doreen Harris
$2.9 billion awarded since 2018 as a result of the first two RES solicitations

46 large-scale renewable energy projects across New York
- 38 solar farms, one with energy storage
- Seven wind projects, three with energy storage
- One hydroelectric facility

Enough electricity to power nearly one million homes

Creation of over 5,600 short- and long-term good paying jobs
April 23, 2019: 2019 Solicitation Is Issued

Governor Cuomo Announces Third Solicitation for Large Scale Renewable Energy Projects to Accelerate the Development of Clean Energy and Combat Climate Change

Expected to Spur Over One Billion Dollars in Clean Energy Investments and Create Over 1,000 Good-Paying Short- and Long-Term Jobs

Accelerates Progress Toward Governor Cuomo’s Proposed Mandate for 70 percent of State’s Electricity to Come from Renewable Sources by 2030 under the Green New Deal

New and updated RES Provisions in 2019

- Transparency and Community Outreach
- Consultation with Department of Agriculture and Markets
- Enhanced Resource Assessment and Energy Production Estimate
- Energy Storage
  - NYSERDA encourages Proposers to review the Battery Energy Storage System Guidebook
- Incremental Economic Benefits updated
- Commercial Operation Milestone Date (COMD) extended
- Enhanced Financing Plan and Business Entity description
- Increased Minimum Threshold Requirement for project development experience
NY Green Bank – Financing Large Scale Renewables
Nicholas Whitcombe
NY Green Bank – Overview

Mission: To accelerate clean energy deployment in New York by working in collaboration with the private sector to transform financing markets

- **What:** A $1 billion State-sponsored investment fund that is a division of NYSERDA
- **Why:** To alleviate financing gaps in New York’s clean energy markets and create a cleaner, more resilient and affordable energy system
- **How:** By mobilizing greater private sector activity to increase the availability of capital for clean energy projects

Supporting the expansion of Large-Scale Renewables in New York State is a strategic priority for NYGB
NY Green Bank – Financing LSR

NYGB is prepared to support developers and investors with a range of credit products and structures, including:
- Interconnection deposit financing
- Long lead time equipment financing
- Construction financing
- Term loans, including subordinated debt to increase tenor and leverage

NYGB will evaluate contracted revenues, including NYSERDA RECs, as well as wholesale power and capacity sales to support long term financing

Executed LSR Transactions:

- **RockWind Holdings**
  - $33.75 MM
- **Valcour Wind**
  - $68.75 MM

Step One Resource Eligibility Determination – Tier 1 Certification

The Order Adopting a Clean Energy Standard established Renewable Energy Standard eligibility requirements.

Prior to participating in RESRFP19-1:
- Operating facilities will apply for a Statement of Qualification (SoQ)
- Facilities that are not yet operational will apply for a Provisional Statement of Qualification (PSoQ)
- Proposers with an existing PSoQ should review details – contact res@nyserda.ny.gov to initiate changes if necessary

Tier 1 eligible generation sources:
- Biogas
- Biomass
- Liquid Biofuels
- Fuel Cell
- Hydroelectric
- Solar
- Tidal/Ocean
- Wind

Please direct eligibility questions to: res@nyserda.ny.gov
Step Two
Application for Qualification
Jennifer Phelps
Step Two Application for Qualification

A complete application package is an online submission that consists of:

- **Step Two Application for Qualification Form** (Attachment A), including the Threshold Eligibility Narrative (Attachment B)
- Minimum Threshold Requirement supporting documentation for:
  - Site Control*
  - Interconnection
  - Permitting*
  - Project Development*
  - Resource Assessment and Energy Production Estimate
- **Proof of Bid Deposit**

* Please use templates provided as attachments to NYSERDA’s RFP.

If the proposed bid facility is in operation, Proposers need only submit underlined items.
Submitting a Step
Two Application for Qualification
Step Two Application for Qualification

Electronic submission website - [http://nyserdaresrfp19-1.accionpower.com/](http://nyserdaresrfp19-1.accionpower.com/)

**Step Two Application for Qualification**

To start a Step Two Application for Qualification, proposers must first register to create an account on NYserda's [electronic submission website](http://nyserdaresrfp19-1.accionpower.com/). The Step Two Application for Qualification will be available to proposers following the Proposers’ Webinar.

Submitting a Step Two Application for Qualification

Required forms and attachments can be found on the Documents page of the electronic submission website:

- a. Final RFP Documents
- b. Required RFP Forms and Attachments
  - Attachment A - Step Two Application for Qualification Form.pdf
  - Attachment B - Step Two Application for Qualification Threshold Eligibility Narrative.pdf
  - Attachment C - Summary Description of Control Status by Parcel.xlsx
  - Attachment D - Environmental Assessment Form.pdf
  - Attachment E - List of Required Permits.xlsx
  - Attachment F - Project Development Experience.xlsx
  - Attachment G - Project Financing Experience.xlsx
  - Attachment H - RES Standard Form Agreement, Exhibit A, B, and C.pdf
  - Attachment H - RES Standard Form Agreement, Exhibit D - Requirements for Biomass-Fueled Bid Facilities.pdf
  - Attachment H - RES Standard Form Agreement, Exhibit E - Department of Agriculture and Markets Guidelines for Agricultural Mitigation.pdf
  - Attachment I - Public Release of Bid Facility Information Form.pdf
  - Attachment J - Electronic Submission Instructions.pdf
- c. NYSERDA Documents
  - NYSERDA Disclaimer.docx
  - NYSERDA Internet Privacy Policy.docx
Submitting a Step Two Application for Qualification
Submitting a Step Two Application for Qualification

For Proposers including Energy Storage:
• Complete two separate Step Two Applications for Qualification, one with and one without Energy Storage
• Clone feature on the electronic submission website may be used to make a copy of the Application without Energy Storage as a starting point for the Application with Energy Storage
Notice of Qualification
Step Three
Bid Proposal
Bram Peterson
Step Three Bid Proposal

A complete proposal package is an online submission that consists of:

- **Bid Facility Overview**
- **Bid Quantity, Bid Price, and Contract Tenor**
- **Incremental Economic Benefits**
- **Project Viability**
  - If applicable, provide additional documentation to demonstrate the current level of progress in any of the first five Project Viability Categories beyond the documentation provided in Step Two;
    - Site Character
    - Community Outreach
- **Operational Flexibility and Peak Coincidence**
  - If applicable, a Load Matching production profile consistent with the Resource Assessment & Energy Estimate
  - If applicable, Energy Storage documentation
- **Public Release Bid Facility Information Form & Community Outreach Plan**

*If the proposed bid facility is in operation, Proposers need only submit underlined items.*
Step Three Bid Proposal - Site Character

Proposers have the option to claim Site Character points by attesting that:

1) The permanent generation, interconnection and, if applicable, Energy Storage footprint (Permanent Physical Footprint) associated with the Bid Facility will avoid land identified by the United States Department of Agriculture (USDA) as prime farmland and prime farmland if drained ("Prime Farmland"), and/or

2) The permanent generation, interconnection and, if applicable, Energy Storage footprint (Permanent Physical Footprint) associated with the Bid Facility will avoid parcels with an agricultural assessment at the time of Step Three Bid Proposal submittal.

In addition, Proposers must also agree to construct the Bid Facility in accordance with NYS DAM Guidelines for Agricultural Mitigation (Exhibit E to Attachment H).

RESRFP19-1 Solicitation Resources

2019 Solicitation Resources

Proposers should use these resources to inform their decisions prior to submitting a Step Two Application for Qualification and a Step Three Bid Proposal to RESRFP19-1.

Site Character and Agricultural Resources

Proposers should use the Site Character Map to inform any attestations made in the Step Three Bid Proposal relating to the subcategory: Project Viability-Site Character. All areas of the map displayed as dark red and green are designated as USDA Prime Farmland. To aid proposers in considering the bid facility’s potential location, tax parcel data has also been provided for counties with data that is available for public distribution.

- 2019 RESRFP19-1 Project Viability, Site Character Map

Further information on USDA Prime Farmland, organized by region:

- Capital Region [ZIP]
- Central New York [ZIP]
- Finger Lakes (East) [ZIP]
- Finger Lakes (West) [ZIP]
- Long Island [ZIP]
- Mid-Hudson [ZIP]
Step Three Bid Proposal - Community Outreach Plan

Proposers must provide a complete description and overview of a Bid Facility’s (and if applicable, Energy Storage) Community Outreach Plan

- Summarize outreach activities to date
- Identify future public engagement events and communications
- Describe any benefits to the host community associated with the Bid Facility’s development, including PILOT/host community agreement payments
- Describe local interests and concerns, including organized support and/or opposition groups, and if applicable, proposed mitigation measures to address concerns
- Identify any local ordinances, zoning prohibitions, and moratoria that may impact the project
- Align responses with Attachment E. List of Required Permits

The Community Outreach Plan will be made public shortly after Bid Proposals are received.

No information provided will be redacted by NYSERDA.
Proposers are required to submit a completed Attachment I. Public Release of Bid Facility Information form with their Step Three Bid Proposals

- NYSERDA will post all Attachment I forms publicly on the RES website shortly after Bid Proposals are received.
- Information must be consistent with and not conflict with other information provided in the Step Three Bid Proposal

**Attachment I. Public Release of Bid Facility Information will be made public shortly after Bid Proposals are received.**

No information provided will be redacted by NYSERDA.
Step Three Bid Proposal - Operational Flexibility

Proposers may earn up to six (6) Operational Flexibility points by including Energy Storage with their Bid Proposal.

A Bid Facility paired with Energy Storage will be eligible for an award if the Energy Storage system is either:

1) co-located with the generation behind a single wholesale or retail meter in the NYCA, or
2) co-located with the generation behind a separate wholesale or retail meter in the NYCA, or
3) located in a separate location from the generation inside the NYCA.

Energy Storage must have a minimum Energy Storage capability, in megawatt-hours, determined by the Bid Facility’s Nameplate Capacity.

Energy Storage eligibility limitations: see page 15 of the RFP.
Bid Proposal Evaluation
Abbey DeRocker
RESRFP19-1 Evaluation Methodology

Price Component:
- 70% Bid Price
- Lowest bid receives 70 points; remainder of acceptable bids are awarded in proportion relative to the lowest bid price
  - Ranking and weighting on an NPV basis over contract duration (up to 20 years)
  - DISCo Rate of 6.66% established by the Department of Public Service Office of Accounting, Audits and Finance
- NYSERDA will employ a confidential Maximum Acceptable Bid Price Evaluation Metric

Non-price Components:
- 10% Economic Benefits
- 10% Project Viability
- 10% Operational Flexibility and Peak Coincidence

Non-price Components evaluated by the TEP
Evaluation: Economic Benefits – 10% Weight

<table>
<thead>
<tr>

<tbody>
<tr>
<td>A) Long-term benefits to New York State</td>
<td>6.5</td>
</tr>
<tr>
<td>B) Short-term benefits to New York State</td>
<td>3.5</td>
</tr>
</tbody>
</table>

- If applicable, Proposers will submit their estimates of economic benefits with their Step Three Bid Proposal
- Proposers must submit a third-party audit of the claims three years after the start of contract delivery.
- NYSERDA will provide Proposers with Incremental Economic Benefits Reporting Standards and Agreed Upon Procedures document with a Notice of Qualification

</thead>
</table>
| Load Matching                 | Bid Facilities in Zones G through K receive 100% category points  
Bid Facilities in A through F will receive a score in proportion to its capacity factor during the lowest 10% of historic annual load hours for Zones A through F in aggregate                                                                                                                                                     | 4               |
| Energy Storage (if applicable) | Storage Capacity (MWh); Minimum amount is required relative to renewable capacity                                                                                                                                                                                                                                                                     | 6               |
Awards

Peter Keane
Award Recommendation

• Ranking
• Initial award group
• NYSERDA reserves the right to employ a wait-list

• DPS and NYSERDA may employ a Portfolio Risk Assessment, consisting of one or more tests:
  • Diversity of resources
  • Diversity of owners
  • Developer experience
Contractual Requirements
NYSERDA RES Standard Form Agreement

- RES Standard Form Agreement - Attachment H of RFP
  - Exhibit A – NYSERDA Standard Terms and Conditions
  - Exhibit B – Letter of Credit
  - Exhibit C – NYSERDA Prompt Payment Policy
  - Exhibit D – Requirements for Biomass Fueled Bid Facilities
    - June 2018 Biomass Power Guide
  - Exhibit E – Department of Agriculture and Markets Construction Standards
New Items

- Excused Production and Force Majeure
- Construction Activities and Construction Period
- Energy Storage Requirements
- Code of Conduct for Contractors
- Site Character Security
- Non-Article 10 Projects in Agricultural Districts
## Contractual Requirements
