incentives
up to \$4,000

Improve your home's comfort and save money with seal and insulate packages

Do you want your family to be more comfortable in your home, lower your energy bills, and get on the path to a clean energy future? Save money and improve your home's comfort year-round with seal and insulate packages. NYSERDA's Comfort Home program makes it easy to make smart investments for a more efficient home now, while paving the way for the latest clean energy heating and cooling options.

The importance of load reduction

When a home's load is reduced, the amount of heat needed to make a home comfortable is reduced, saving energy and money.

NYSERDA's program offers incentives for standardized and pre-screened home improvement packages. These packages range from sealing and insulating an attic (basic package) to sealing and insulating attics, walls, and windows (best package). By pre-packaging home improvements, NYSERDA makes it easier for homeowners to bundle services and create a clean, comfortable home environment.

Four tiers of load reduction packages*

** Dollar amounts shown reflect incentive amounts, total package costs to be discussed with contractor*

Tier Level	Description	Cost
★ ★ ★ ★ Basic	Air and duct sealing + duct insulation	\$500
★ ★ ★ ★ Good	Air and duct sealing + duct insulation + insulate attic and rim joist	\$1,000
★ ★ ★ ★ Better	Air and duct sealing + duct insulation + insulate attic and rim joist + insulate walls + insulate floor	\$2,500
★ ★ ★ ★ Best	Air and duct sealing + duct insulation + insulate attic and rim joist + insulate walls + insulate floor + Energy Star® windows	\$4,000

NYSERDA

Who can participate

Homeowners of one- to four-family homes who pay into the System Benefits Charge (SBC) on their electric bill are eligible to participate. Start with a no-cost consultation with a qualified contractor who will help you select the improvement package that is right for you, including available rebates and financing.

To find out if the Comfort Home program is right for you, visit nyserdera.ny.gov/comforhome.

Additional upgrades

Once you've done the initial load reduction work, your home is on its way to being sealed and more comfortable. For additional ways to save energy and money on heating fuel costs, your Comfort Home contractor can provide you with information about clean heating and cooling heat pump equipment options for your home as well as available rebates and incentives.

Heat pumps are an energy-efficient alternative to conventional heating and cooling systems and can provide up to 100 percent of the home's heating and cooling needs with no fossil fuel. To learn more about Heat Pump technology, visit nyserdera.ny.gov/Heat-Pumps.
