Make your home or apartment more energy efficient — for free

Improving energy efficiency saves you money—and won't cost you a dime. Income-eligible New Yorkers can get no-cost upgrades that reduce energy bills. Now you don't have to choose between utilities and other necessities.

A small improvement makes a big difference

Just a few energy improvements can save you cash on your energy bills. Here are some examples of upgrades you could receive — at no charge!

- Replacement of inefficient refrigerators and freezers
- New energy-efficient lighting
- Insulation to make your home or apartment warmer in the winter and cooler in the summer
- Air sealing to reduce drafts
- A monthly electric credit of between \$5-\$15 from community solar
- Plus, we'll show you additional ways to use less energy in your daily routine, saving you more money

And the best part? On top of the savings, the program is completely free for income-eligible residents.

Are you eligible? Let's see!

Free energy efficiency improvements are available for homeowners and renters. You may be eligible for EmPower New York if you can answer "Yes" to both these statements:

- I live in a home or building with 100 units or fewer.
- My household income is below 60 percent of the state median income (I am eligible for regular HEAP benefits) or I participate in a utility payment assistance program.

Once you're approved, we'll schedule a free energy assessment of your home or apartment by a certified contractor. Your assessment will pinpoint the ways we can help your home be more energy efficient, healthier and more comfortable — and save you money.
