

Public Comment Procedure

Each commenter will have 2 minutes.

- > We will go through all those who pre-registered to speak first.
- > If you did not pre-register, you can sign up to speak by submitting your name and any affiliated organization using the Q&A feature in Webex (bottom right of your screen).
- > When your name is called, please unmute yourself (left-most button in the bottom middle of your screen).
- > It is encouraged, but not required, that commenters turn on their video during their comments.

Waste Advisory Panel

Recommendation Topics

- > **Reduce landfilling of wastes that produce methane**
 - Increase waste reduction and recycling of organics (food waste, etc.) and other solid wastes
 - Focus on local scale, job producing initiatives; ensure attention to marginalized communities
 - Implement Extended Producer Responsibility (EPR) – requiring the manufacturers to set up recycling systems for their products
 - Expand markets for recyclables and encourage repair centers
- > **Control methane emissions from landfills and other solid waste management facilities**
- > **Enhance water resource recovery facilities (WRRFs or wastewater treatment plants) to control methane and nitrous oxide emissions**
 - Incorporate energy recovery and beneficial use at WRRFs
