

NYSERDA is pleased to offer paid internships to current full-time college students.

As an intern for NYSERDA you will:

- Gain a holistic view of NYSERDA and explore work being accomplished across multiple teams
- Learn about and support cutting-edge projects in wind, solar, electric vehicles, and more
- Be part of a 30+ member internship cohort
- Create and deliver an end-of-summer presentation for NYSERDA's Executive Team, your team, and fellow interns
- Have your own on-site workstation, with direct access to a virtual machine and Microsoft Teams
- Build knowledge, networks, and connections within the State's clean energy industry

Flexible schedules, with hybrid work

Take advantage of our flexible work arrangement. A NYSERDA internship offers a combined in-office + remote arrangement.

- **Summer interns** — Plan to work up to 37.5 hours per week, with 50% in one of NYSERDA's offices in Albany, Buffalo, New York City, or West Valley. Work begins June 1.
- **Academic year interns** — Work up to 18.5 hours per week, with 50% in one of NYSERDA's offices in Albany, Buffalo, New York City, or West Valley. Office/telework schedules will be worked out with your internship manager.

Bi-weekly pay

Income is calculated based on class standing.

- Freshman, Sophomore, and Junior: \$15/hour
- Senior: \$16/hour
- Graduate Student: \$17/hour

Application deadlines

Candidates can apply on a rolling basis.
