Low-Income Forum on Energy
2019 Regional Meeting Series

AGENDA

May 14th – North Country – Lake Placid, NY
Welcome
On behalf of the LIFE Steering Committee, welcome to today's LIFE Regional Meeting, one of seven taking place around New York State this year. As the cost of energy continues to pose challenges to New Yorkers with low or fixed incomes, it is important to make available to community leaders and service providers useful, timely information to assist low-income consumers. Today's program will supply you with updates on key programs along with valuable information on available resources and will highlight certain regional best practices. Please also take advantage of the tremendous opportunity for networking at today's event. Often, it takes the right contacts to help serve your clients in the most effective and efficient manner. I hope that you enjoy today's meeting, and I'd like to thank you for participating in the LIFE dialogue!

– Monica M. Ferreri, LIFE Chair

**Session 1: Advancing Energy Affordability and Access to Clean Energy in New York State**

New York State is advancing far-reaching clean energy initiatives to spur achievement of important climate and energy affordability objectives, including undertaking clean energy innovation and fundamental regulatory changes to bring new investments into the State that improve consumer choice and affordability. This session will provide an overview of and update on the primary initiatives guiding New York State’s clean energy transition with specific focus on how New York is advancing energy affordability and access to clean energy solutions for lower-income and disadvantaged New Yorkers.

*Speakers: Christopher Coll, NYSERDA
Monica M. Ferreri, New York State Department of Public Service*

**Session 2: Utility Updates**

Utilities have a long history of providing energy assistance to their low-income customers—from budget billing to efficiency programs. This utility updates session provides the most recent information on utility low-income energy efficiency and payment assistance programs currently being administered in New York State.

*Speaker: Joann Zales, National Grid*

**Session 3: Focus on Environmental Justice: Statewide and Local Perspectives**

As defined by the New York State Department of Environmental Conservation, environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment means that no group of people, including a racial, ethnic, or socioeconomic group, should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal programs and policies. Environmental justice in energy policy intersects with the racial, economic, housing, health and other social justice issues which impact low-income residents and communities of color. Achieving equity in clean energy program design and implementation requires inclusive engagement with and representation of the impacted communities along with fair distribution of benefits and burdens while prioritizing those with the highest need. This session will provide local and statewide perspectives on environmental justice and the opportunity to learn about related projects led by local organizations.

*Speakers: Michelle Andry, NYSERDA
John F. Sheehan, Adirondack Council*
11:45 pm – 12:45 pm

Luncheon

12:45 pm – 1:15 pm

Session 4: Participating in a Major Utility Rate Case

This session will cover how and why individuals and community-based organizations/businesses and other entities can become parties or otherwise advocate knowledgeably for their standing and values in major utility rate cases. The procedural rhythms and necessary resource commitments as set forth in State law will be detailed along with discussion of how resource-constrained groups/individuals may nonetheless have strong impact upon these vital public proceedings. Examples will be provided from recent rate cases to illustrate how informed and involved communities can make a difference in utility affordability, the State’s greenhouse gas reduction goals, and energy efficiency targets.

Speaker: Richard Berkley, Public Utility Law Project of New York

1:15 pm – 1:45 pm

Session 5: Zero Energy Modular (ZEM) Homes in New York State

Zero Energy Modular (ZEM) homes provide an alternative to both traditional manufactured housing and to site-built homes, taking advantage of the various clean energy solutions that minimize both costs and energy consumption. For mobile or manufactured home (MMH) owners, ZEM provides an affordable pathway to homeownership along with positive health benefits resulting from improved indoor air quality and enhanced home comfort. ZEM offers an opportunity to lower housing burden in urban and rural areas and provides a novel solution to the challenge of zombie properties and vacant lots. This session will present the ongoing work by the State, housing agencies, and other ZEM stakeholders, including plans for scaling access to ZEM in New York State.

Speakers: John Scicchitano, NYSERDA
          Tim McCarthy, Leaf Homes

1:45 pm – 2:00 pm

Afternoon Remarks

2:00 pm – 2:30 pm

Networking and Exhibit Break

2:30 pm – 4:30 pm

Discussion on Programs, Barriers, and Opportunities

Building on the discussions started during the 2018 Low- to Moderate-Income Public Forums hosted by NYSERDA and the NYS Department of Public Service, this stakeholder feedback discussion will focus on current initiatives and identify opportunities to improve the impact of energy and affordability programs in communities.
Thank you to the LIFE 2019 Regional Meetings Subcommittee members
The LIFE Steering Committee would like to thank our 2019 Regional Meeting Subcommittee members for their time and expertise in the development of the agenda for this meeting and in the facilitation of scholarship opportunities. Their commitment to the LIFE mission and the support from the organizations that they represent on the LIFE Steering Committee is greatly appreciated.

LIFE 2019 Regional Meetings Planning Subcommittee
Amy Barry, National Grid; Susann Brown, Orange and Rockland Utilities; Nancy Campo, PSEG-Long Island; Linda Eddy, PSEG-Long Island; Mishel Filisha, NYSERDA; Beth Monaco, Central Hudson Gas and Electric; Valerie Strauss, Association for Energy Affordability; Charlie Quinn, Regional Economic Community Action Program

LIFE 2019 Regional Meetings Scholarship Subcommittee
Connie Clouston, National Grid; Mishel Filisha, NYSERDA; Meshell Garcia, NYS Office of Temporary and Disability Assistance; Sherry Higgins, National Grid; Jackie Sykas, New York State Electric and Gas

Since the NYS Public Service Commission initiated LIFE in 1998, the LIFE Steering Committee has been an integral part of the growth and development of the program. The Steering Committee is comprised of the following organizations:

- Association for Energy Affordability, Inc.
- Cattaraugus Community Action, Inc.
- Central Hudson Gas & Electric Corporation
- Community Power Network of NYS
- Consolidated Edison of NY, Inc.
- HeartShare Human Services of New York
- National Fuel Gas Distribution Corporation
- National Grid
- New York Power Authority
- New York State Community Action Association
- New York State Department of Public Service
- New York State Department of State
- New York State Electric and Gas Corporation
- New York State Energy Research and Development Authority
- New York State Homes and Community Renewal
- New York State Office for the Aging
- New York State Office of Temporary and Disability Assistance
- New York State Weatherization Directors’ Association
- Orange and Rockland Utilities, Inc.
- PSEG Long Island
- Public Utility Law Project of New York State
- Regional Economic Community Action Program
- Rochester Gas and Electric
- Solix, Inc.

The Low-Income Forum on Energy (LIFE) is supported by the New York State Public Service Commission (PSC) and the New York State Energy Research and Development Authority (NYSERDA). For more information about LIFE, please visit our website at nyserda.ny.gov/LIFE.

As part of our ongoing commitment to both environmental and fiscal responsibility, we will not be printing and distributing presentation handouts. Please support us in these efforts by going to nyserda.ny.gov/LIFE after the meetings to download copies of available presentations. Attendees will receive an email notification when the presentations become available.

Save the Date!
The LIFE 2020 Statewide Conference will be held on May 19-20, 2020 in Albany NY. Further information will be available in late 2019.
