Subject: RGGI Spending Plan and the CLCPA

Dear President Barton:

As you know, the Climate Leadership and Community Protection Act (CLCPA) has been called the nation-leading climate law not just because of its aggressive carbon emission reduction goals, but also because of its emphasis on justice for frontline communities. New York now has a chance to demonstrate a commitment to the equity intent of this law by mandating that at least 35% of the funds from RGGI auction proceeds be spent on programs designed to benefit disadvantaged communities.

In addition, I oppose the use of auction revenue for state budget relief or other unintended purposes.

I look forward to a final plan that assures RGGI auction proceeds are spent with equity as a priority,

Regards,
