

YOUR ENERGY-EFFICIENT HOME CHECKLIST

This handy checklist makes it easy to compare some of the benefits of New York ENERGY STAR® Certified Homes and Net Zero Homes with those of a conventional home.

ASK YOUR BUILDER:	CONVENTIONALLY BUILT HOME	NEW YORK ENERGY STAR CERTIFIED HOME	NET ZERO HOME
Will the home be outfitted with ENERGY STAR-qualified doors ?		✓	✓
Is the HVAC system installed by a professional Quality Installation contractor, completing a 71-point inspection?		✓	✓
Will it have multiple energy-saving features such as ENERGY STAR-qualified windows with enhanced insulation and air sealing?		✓	✓
Will it be performance tested by a certified RESNET Home Energy Rater to ensure that the home is performing as it was designed?		✓	✓
Will the home receive an ENERGY STAR certificate —proof that you purchased a truly energy-efficient home?		✓	✓
Will the home generate energy through renewable sources?			✓
Will it be designed and constructed to eliminate energy bills ?			✓
