

# Balancing Electricity Markets, Reliability and the Environment

*David J. Lawrence*  
*October 26, 2005*

# Topics of Today's Presentation

---

- Overview of the NYISO
- The NYISO's Environmental Advisory Council
- Current Environmental Issues Impacting the NYISO
- Environmental R&D and its implications for the NYISO

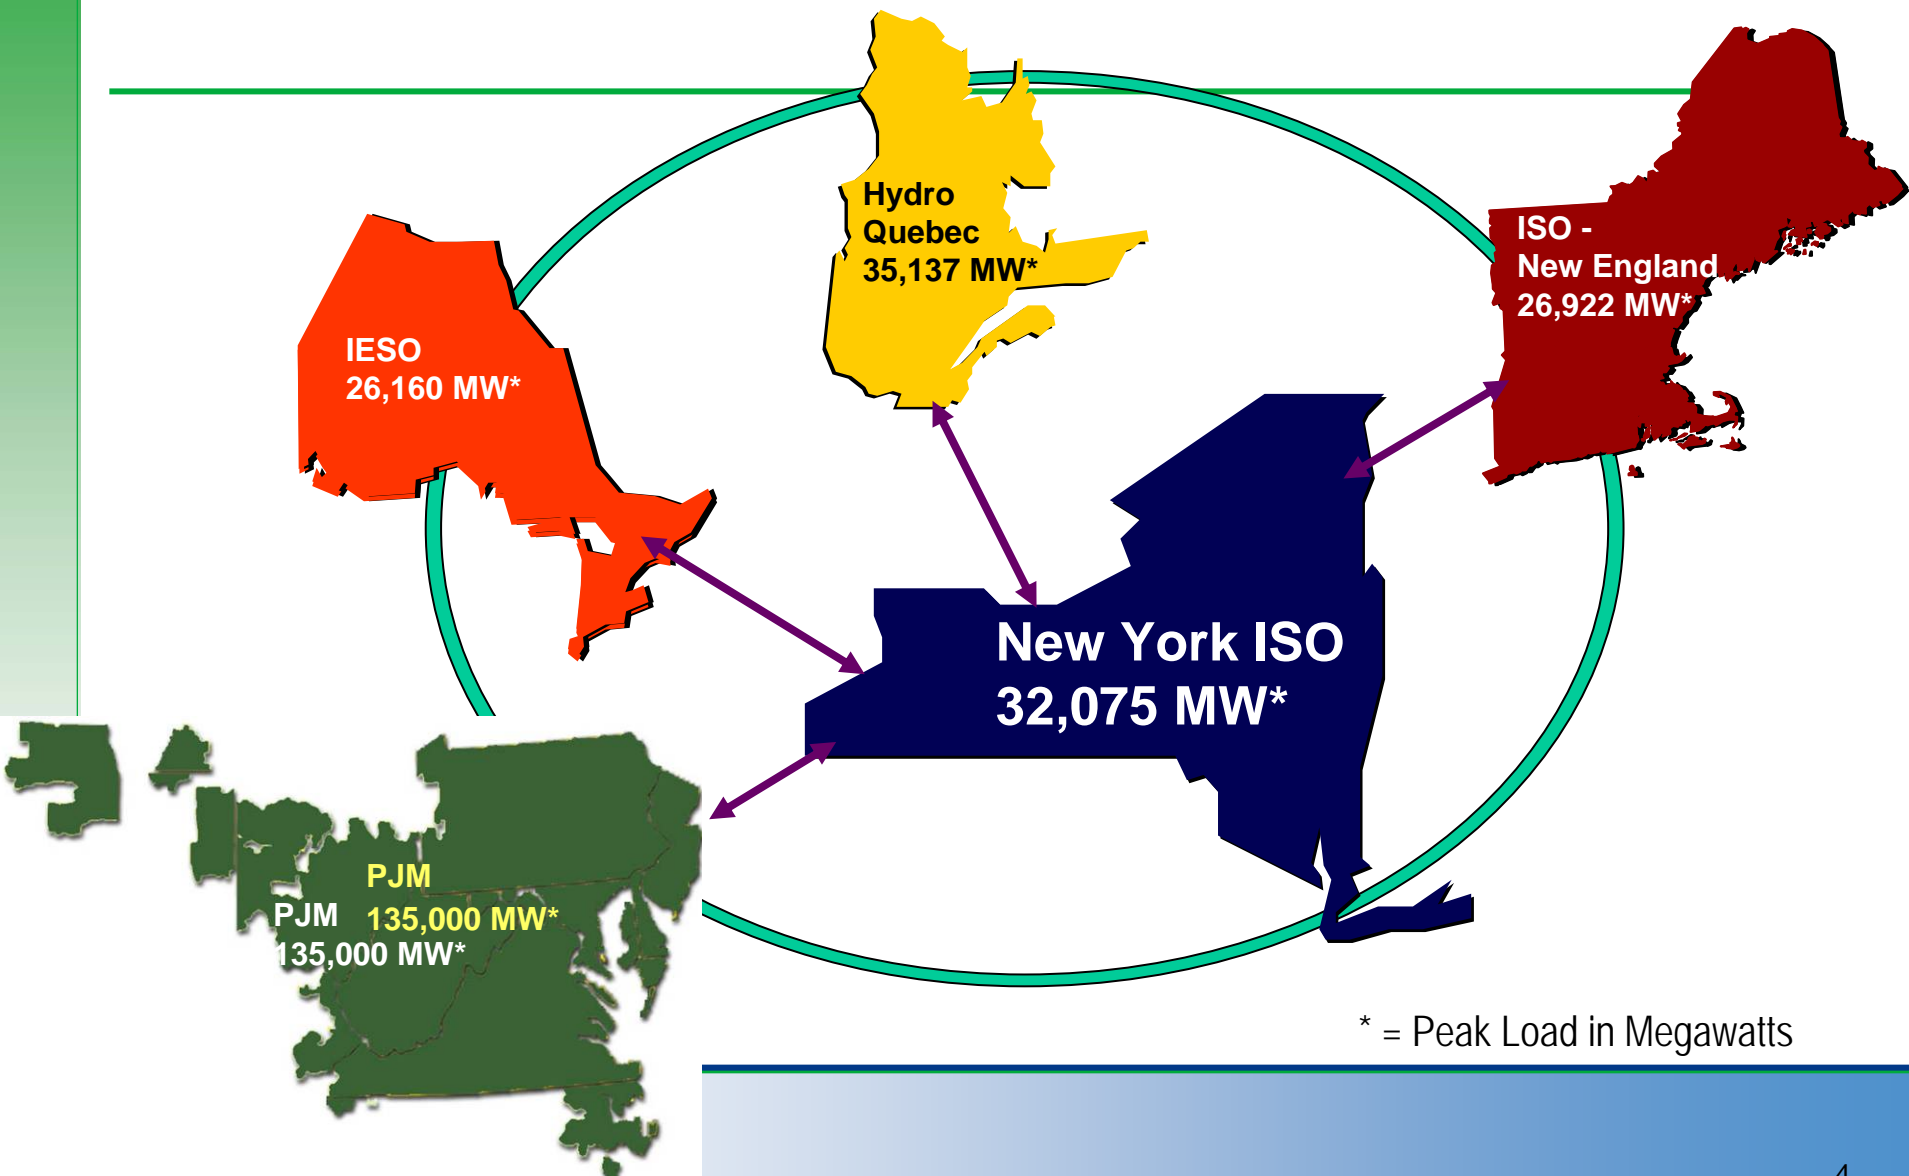

# NYISO Overview

---

- **NYISO formed December 1, 1999.**
- **Utility generation divestiture rate makes it one of the most divested markets in nation.**
- **NYISO market volume about \$7.5 billion in 2004 and over \$30 billion since inception. Highest market volume in East.**
- **Unique challenge: New York City is the world's biggest and most complex load pocket. World finance and communications capital.**

# New York ISO

"Hub of the Northeast"

\* = Peak Load in Megawatts
