

MyWallbox is a visual and functional view of the Wallbox charging management platform. It provides control of the electricity provided to your EV.

Features:

- Real-time charging statistics. Manage charging and monitor the charge status
- Set and change charging schedules
- Remote locking and unlocking
- Real-time notifications
- View your charging logs, energy consumption, cost

**Basic Network Details**

Intended Installation Setting	<ul style="list-style-type: none"> <li>• Workplace</li> <li>• Multi-unit dwelling (MUD)</li> </ul>
Compatible charging equipment suppliers	MyWallbox
Network Connection Type	<ul style="list-style-type: none"> <li>• WiFi</li> <li>• Bluetooth</li> </ul>
Network services offered	<ul style="list-style-type: none"> <li>• Control of charge rates (kw)</li> <li>• Equipment status monitoring</li> <li>• Driver reservations</li> <li>• Equipment usage reports</li> </ul>
Forms of payment accepted	<ul style="list-style-type: none"> <li>• Mobile phone app</li> </ul>
Does the charging network provide an OpenADR 2.0 Virtual End Node (VEN) for utility demand response integration?	No
If not, do you have the capability for utilities to provide demand response through the networks backend?	Yes
Does the charging network allow equipment owners to set pricing for their stations?	Yes
Does the charging network provide data to equipment owners on station electricity dispensed and number of charging events?	Yes
Can the charging network provide access to charging station data to NYSERDA directly, with the equipment owner/network customer’s permission?	Yes
