

ORCA Incisive are Electric Vehicle Chargers capable of Demand Response (DR). Zen (Wall Mount) is suitable for residential and commercial indoor and outdoor locations.

Zen perform Level 2 SAE J1772 charging (208-240 VAC) up to 80 AMPS with communication capabilities to report on transactional data and participate in DR events. The embed 4G/LTE technology uses OCPP 1.6 and OpenADR protocols to communicate with cloud Central Station and Power Utilities to participate in DR-Programs.

Basic Equipment Details

Type of Mount	Wall-mounted
Number of Ports	Single
Intended Installation Setting	<ul style="list-style-type: none"> • Public • Workplace • Multi-unit dwelling
Networking Capability	Optional
Indicate whether the equipment uses an open standard protocol as a basic framework for purposes of network interoperability and for communication with the network services provider, and specify the protocol (such as OCPP)	OCPP 1.6
Network providers used to date	Andromeda Power
Input Power (kW AC)	up to 20 kW
Rated Output Power (kW AC)	up to 20 kW
Can the equipment split power between multiple ports?	Yes
Dimensions (HxWxD, in inches)	20x10x9
Charging cable length (in feet)	18 or 25
Operating temperature range	-40F to 140F
Is the equipment ENERGY STAR® certified?	No
Does the equipment have a display screen?	Yes - LCD
Method(s) of Payment Accepted	<ul style="list-style-type: none"> • Credit Card • Network RFID Tag • Mobile Phone App
How do customers purchase the equipment?	<ul style="list-style-type: none"> • From the Manufacturer • From the Network Providers • From Third-Party Distributors
Warranty Duration (months)	24 months

Special Features Included in the Equipment

- Advertising space
- Cable management

Optional Accessories

- Cord management system
- Solar PV car port
- Locking system
- Advertisement on LCD

Optional Services

- Data collection
- Turnkey installation
- Technical support
- Operation service
- Extended warranty
- Maintenance services
