

The CT 4000 Level 2 station is specifically designed for public charging applications. The CT4000 family of easy to use, ADA compliant Level 2 charging stations integrate design and functionality with superior reliability and durability. The CT4000 offers one or two standard J1772 Level 2 charging ports, each supplying up to 7.2kW (208/240VAC @30A). Bollard and wall mount configurations are available for easy installation anywhere. The CT4000 is the first ENERGY STAR® certified EV charger and also has intelligent energy management capabilities that can lower both installation and energy costs.

Basic Equipment Details
