Type of Mount	Both pedestal or wall-mounted available
Number of Ports	Single
Intended Installation Setting	<ul style="list-style-type: none"> • Public • Workplace • Multi-Unit Dwelling
Networking Capability	Networked
Indicate whether the equipment uses an open standard protocol as a basic framework for purposes of network interoperability and for communication with the network services provider, and specify the protocol (such as OCPP)	OCPP 1.2, 1.5, 1.6S and 1.6J
Network providers used to date	<ul style="list-style-type: none"> • EV Connect • Greenlots
Input Power (kW AC)	32 A - 6.6kW-7.4
Rated Output Power (kW AC)	32 A - 6.6kW-7.4
Can the equipment split power between multiple ports?	N/A
Dimensions (HxWxD, in inches)	10" x 8" x 24"
Charging cable length (in feet)	18 or 25 feet
Operating temperature range	-22°F to +130°F
Is the equipment ENERGY STAR® certified?	Yes
Does the equipment have a display screen?	No
Method(s) of Payment Accepted	<ul style="list-style-type: none"> • Network RFID Tag • Mobile Phone App
How do customers purchase the equipment?	From Third Party Distributors
Warranty Duration (months)	36 months

Special Features Included in the Equipment

- Load-Balancing
- Hub Satellite
- Demand Response
- Open Adr. 2.0.

Optional Accessories

- Single port cable holster (pole mount)
- Single port cable holster (wall mount)

Optional Services

- AON - Plug'n play activation
- UNL - RFID access activation
