

OCPP 1.6 Compliant network enables you to add any OCPP 1.6 & ABOE Compliant charging stations to the evgateway network & start monitoring its activities. Set the cost drivers pay to utilize charging stations activities allowing pricing based on the energy cost, hourly, session based charging. Power management helps to reduce the load on the grid at the time of peak demand. Mobile application allows users to locate and navigate to the nearest charging stations and complete cardless charging session. Customized alerts related to station faults, session interruptions, etc. and continuous monitoring of the charging stations help prevent faults from occurring.

**Basic Network Details**

Intended Installation Setting	<ul style="list-style-type: none"> <li>• Public</li> <li>• Workplace</li> <li>• Multi-unit dwelling (MUD)</li> </ul>
Compatible charging equipment suppliers	<ul style="list-style-type: none"> <li>• BTC Power</li> <li>• Wattzilla</li> </ul>
Network Connection Type	<ul style="list-style-type: none"> <li>• Cellular - CDMA</li> <li>• Cellular - GSM</li> <li>• WiFi</li> <li>• Lan/Hard-wired Internet</li> </ul>
Network services offered	<ul style="list-style-type: none"> <li>• Control of charge rates (kW)</li> <li>• Equipment status monitoring</li> <li>• Payment processing and rate setting (\$)</li> <li>• Driver reservations</li> <li>• Equipment usage reports</li> <li>• Remote start and stop transactions from Mobile App</li> </ul>
Forms of payment accepted	<ul style="list-style-type: none"> <li>• Credit card</li> <li>• Network RFID tag</li> <li>• Mobile phone app</li> <li>• PayPal</li> <li>• Stripe</li> </ul>
Does the charging network provide an OpenADR 2.0 Virtual End Node (VEN) for utility demand response integration?	Yes
Does the charging network allow equipment owners to set pricing for their stations?	Yes
Does the charging network provide data to equipment owners on station electricity dispensed and number of charging events?	Yes
Can the charging network provide access to charging station data to NYSERDA directly, with the equipment owner/network customer’s permission?	Yes
