EvGateway is a global, multifaceted EVSE network solution intended to simplify electric vehicle charging for both drivers and equipment owners. With our free mobile app, drivers can locate and reserve chargers, get directions and pricing information, as well as safely pay for charging sessions. Partnered with various EVSE manufacturers, we provide customized turnkey solutions for stations in retail, the workplace, fleets, and MUD's, etc.

Basic Network Details

	D 1 11
Intended Installation Setting	• Public
	• Workplace
	Multi-unit dwelling (MUD)
Compatible charging equipment suppliers	Tellus Power Green
	BTC Power
	• JuiceBar
	• WattZilla
	• EvBox
	• Siemens
	• EVSE LLC
Network Connection Type	• Cellular - GSM
	• WiFi
	Lan/Hard-wired Internet
Network services offered	Control of charge rates (kW)
	Equipment status monitoring
	 Payment processing and rate setting (\$)
	Driver reservations
	• Equipment usage reports
	• 24 x 7 x 365 Helpdesk
	and Support
Forms of payment accepted	Credit card
	Network RFID tag
	• Mobile phone app
	 Authenticate using Keypad on the charging station for few manufacturer
