

The SmartTWO-BSR allows a safe installation directly on the curbside, thanks to its retractable cables that hang in the air and not on the sidewalk. This robust charging station can charge two EVs simultaneously and although it is almost 12 feet tall, it is also very slim, and will blend into any modern urban decor.

Just like the other charging stations of the SmartTWO family, the Curbside charger is specifically made to resist harsh climate and vandalism; its sturdiness, durability, and access control system are essential elements in an urban environment.

**Basic Equipment Details**

Type of Mount	Pedestal
Number of Ports	Dual
Intended Installation Setting	<ul style="list-style-type: none"> <li>• Public</li> <li>• Workplace</li> <li>• Multi-Unit Dwelling</li> </ul>
Networking Capability	Networked
Indicate whether the equipment uses an open standard protocol as a basic framework for purposes of network interoperability and for communication with the network services provider, and specify the protocol (such as OCPP)	No
Network providers used to date	FLO Network
Input Power (kW AC)	6.2 kW (208V) 7.2 kW (240V)
Rated Output Power (kW AC)	6.2 kW (208V) 7.2 kW (240V)
Can the equipment split power between multiple ports?	No
Dimensions (HxWxD, in inches)	23" x 132.5" x 40"
Charging cable length (in feet)	25
Operating temperature range	-40°F to 122°F
Is the equipment ENERGY STAR® certified?	No
Does the equipment have a display screen?	Yes - LED
Method(s) of Payment Accepted	<ul style="list-style-type: none"> <li>• Credit Card (by phone)</li> <li>• Network RFID Tag</li> <li>• Mobile Phone App</li> </ul>
How do customers purchase the equipment?	<ul style="list-style-type: none"> <li>• From the Manufacturer</li> <li>• From Network Providers</li> <li>• From Third Party Distributors</li> </ul>
Warranty Duration (months)	24 months
