At Noodoe, we're leading the way towards a world where parking is charging. To accomplish this, we provide service automation solutions that transform parking lots into hands-off revenue generators. What makes us different is Noodoe EV OS, one of the world's most advanced cloud-based operating systems, serving as the "brain" that fully automates 24/7 service delivery, universal payment processing, and advanced energy cost reduction.

Basic Network Details

Intended Installation Setting	• Public • Workplace • Multi-unit dwelling (MUD)
Compatible charging equipment suppliers	BTC Power
Network Connection Type	• Cellular - CDMA • Cellular - GSM • WiFi • Lan/Hard-wired Internet
Network services offered	• Control of charge rates (kW) • Equipment status monitoring • Payment processing and rate setting ($) • Equipment usage reports
