## Make the switch to 100% renewable electricity for your municipal buildings

Demonstrate your community's leadership in the clean energy sector and set an example for others in your region and across the State. By committing to 100% renewable electricity for all municipal electricity accounts, you will reduce your community's dependency on energy sources that produce harmful greenhouse gas emissions, which significantly contribute to climate change.

### Earn recognition and unlock access to grant funding

NYSERDA's Clean Energy Communities Program recognizes and rewards local governments for their clean energy leadership. By completing four High Impact Actions, you can earn the Clean Energy Community designation as well as grant funding to support additional clean energy projects.

Each High Impact Action is worth points collected upon completion of the action. The points you earn count toward unlocking access to point-based grant funding. Certain High Impact Actions are also eligible for additional Action Grants. You can earn 500 points toward a grant by completing this action.

Visit [nyserda.ny.gov/cec](https://nyserda.ny.gov/cec) to review the full list of High Impact Actions and available grants.

## Ready to get started?

Dedicated and knowledgeable Clean Energy Communities Coordinators are available to assist municipal staff as they implement this action. Your regional Coordinator will review your goals to help you determine which actions are best for your community and how to access grant funding.
