Energy efficiency promotes higher quality patient care.

The New York State Energy Research and Development Authority (NYSERDA) assists the healthcare industry with reducing energy costs and improving the environment while enhancing the treatment of patients. Hospital operators can take advantage of NYSERDA programs, which include energy studies.

Decrease your energy usage and raise patient comfort

Energy-efficient investments not only save you money, they help you create safer, more comfortable environments. NYSERDA can show you how energy efficiency contributes to even bigger goals like:

- Attracting more talented practitioners
- Mitigating the overhead costs required to care for the aging
- Maintaining healthy air quality and improving infection control
- Sending patients home sooner

Team up with our experts to improve infrastructure and support systems

Your local utility and our NYSERDA experts can help find energy solutions that work for your industry. We can help you with key areas such as:

- System reliability; hardening
- Energy-reduction goals
- Patient comfort

NYSERDA

Implement measures that will make the most impact

Healthcare facilities have unique requirements for controlling and reducing energy. Your local utility and NYSERDA can help you define those energy efficiency needs and select the right support resources for your project(s). Some of the most common measures successfully identified and implemented by hospitals and other medical communities include:

- Control systems upgrades
- Advanced lighting controls
- Heat recovery systems
- Chiller/AHU/cooling tower replacement
- Medical gas system upgrades
- Elevator upgrades

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and support to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975. To learn more about NYSERDA's programs, visit nyserdera.ny.gov or follow us on Twitter, Facebook, YouTube, or Instagram.
