## Take a comprehensive approach to energy efficiency.

### Improve productivity and reduce energy costs in your buildings

Big buildings mean big savings for commercial and institutional facilities in New York State. Through the Commercial Implementation Assistance Program, NYSERDA offers cost-sharing of up to 50% to complete targeted energy efficiency projects.

#### Targeted energy efficiency projects covered by the program include:

- Advanced Lighting
- Deep energy retrofit projects
- Advanced monitoring and control systems
- Oil space heating efficiency upgrades
- Advanced technologies submitted with a utility referral requesting NYSERDA consider funding the measure(s)

#### Requirements for eligible projects include:

- A simple payback period that is between 4 and 14 years excluding NYSERDA incentives
- A minimum project cost of \$50,000

### Who can apply

Commercial and institutional facilities that are New York State electricity distribution customers and pay into the System Benefits Charge (SBC) can apply. Eligible facilities include:

- Colleges and universities (public and private)
- Health care facilities
- K-12 schools (public and private)
- Not-for-profit and private institutions
- Office buildings
- Retail
- State and local governments

### Get started

Visit **[nyserdera.ny.gov/CIA](http://nyserdera.ny.gov/CIA)** for additional information about the program. Applications will be reviewed on a first-come, first-served basis until December 29, 2016 or until funds are exhausted, whichever comes first.
