

**Original Equipment Manufacturer  
(OEM) Letter of Consent**

The New York School Bus Incentive Program (NYSBIP or the Program) enables approved school bus dealers (Dealers) that work directly with original equipment manufacturers (OEMs) or upfit/retrofit manufacturers (URMs) to offer incentives to school bus fleet customers to reduce the purchase price of approved zero-emissions school buses. School buses receiving incentives through the Program must be sold by a participating Dealer. OEMs and URMs may be Dealers; Dealers that are not OEMs or URMs must provide documentation demonstrating that they are an authorized third-party vendor of vehicles manufactured by an OEM or URM whose vehicles are approved for participation in the Program.

**Original Equipment Manufacturer or Upfit/Retrofit Manufacturer**

I attest that the Dealer listed below is an authorized third-party vendor of school buses manufactured by the OEM/URM listed here. I attest that I am authorized by the OEM/URM to verify this information.
