

# Uncover Hidden Opportunities

## with a FlexTech Consultant

[Request Logo Lockup](#)

NYSERDA-Approved FlexTech Consultant

**NYSERDA**

Energy can be a significant part of the cost to run your business, but these costs can be managed if you work with a FlexTech Consultant to identify opportunities to reduce energy use.

**REDUCE**  
operating costs

**IMPROVE**  
energy efficiency

**MAXIMIZE**  
profitability

## Gain Confidence

Consultants provide objective, site-specific, and targeted studies and will work with you to determine the best approach based on your needs, so you can feel confident in the decisions you're making.

### Eligible study areas can include:

- Energy master planning
- Comprehensive energy studies
- Clean heating and cooling system feasibility studies
- Energy efficiency retro-commissioning

By working with a FlexTech Consultant, you can reduce your upfront capital commitment, and receive objective recommendations from experienced consultants.

### Through the FlexTech Program you can learn:

- If a clean energy project is right for you
- How to reduce your energy bills
- The payback on potential energy-related building upgrades
- How to develop a capital plan that includes clean energy components
