Phase 2 Use Case Prioritization Survey

We gathered input from a broad range of key IEDR stakeholders, potential users, and subject-matter experts via the Phase 2 Use Case Prioritization Survey to inform IEDR Phase 2 use case prioritization and data requirements. The results of this survey will enable us to better understand use case impact and feasibility considerations. Key insights will then be incorporated into future plans for the IEDR, including the IEDR Phase 2 Proposal.

29 Use cases were included in the Phase 2 Use Case Prioritization Survey

8 Categories of stakeholders represented

These use cases represent the business functionality that will be prioritized and developed in Phase 2 of the IEDR Program.

51 💬 **41** 👥
Responses Organizations

Responses submitted during the initial survey release window (12/7/22 – 12/28/22) were included in the analysis presented during the session. Subsequent submitted responses will be reviewed as part of the work necessary for the Phase 2 Proposal.

👤 Tailored Survey Experience

– Survey participants can select multiple stakeholder group affiliations

– Based on the stakeholder group selected, use cases aligned to that stakeholder group display details about the user interfaces or display

❓ Survey Questions Per Use Case

– How impactful is this use case in accelerating and improving NY's CLCPA Goals?

– Considering the use case's data and technical difficulty, business complexity , and required policy changes, how feasible is this use case to implement?

– Free response section for additional comments and notes

Next Steps

For IEDR Program:

✓ **Incorporate feedback from the GSE** into the Phase 2 Proposal use case roadmap

✓ **Analyze all Phase 2 Prioritization Survey responses** for consideration into the Phase 2 Proposal use case roadmap
