

## Out of Work and Struggling to Pay Your Energy Bills?

NY Energy Advisor can help take the worry of affording monthly energy costs off your plate.

### What is NY Energy Advisor?

NY Energy Advisor is a simple online tool that offers one-stop shopping for income-eligible New Yorkers who are looking to find ways to make their monthly energy bills more affordable. It's easy to navigate—all you need to do is answer a few simple questions, and we'll connect you with a custom list of energy-saving offers in New York State you may be eligible for. NY Energy Advisor, in partnership with New York State Research & Development Authority (NYSERDA) and local utilities, offers easy-to-understand options, reduced energy costs, and increased comfort.

### What is the purpose of NY Energy Advisor?

With so much up in the air, you deserve one sure thing: the ability to pay your energy bills without sacrificing comfort each month. NYSERDA and New York State utilities have partnered on this initiative to help eligible New Yorkers find low- to no-cost energy-saving offerings and upgrades, now all in one place.

### How does it work, and how will it help me?

By answering simple questions about your home or property, utility provider, income, and location, NY Energy Advisor creates a custom list of low-cost or no-cost savings opportunities that work best for you. You may be eligible for one or more of the following:

- Budget billing that spreads bill payments evenly over 12 months.
- Discounts on energy bills through available assistance programs.
- Flexibility with payment agreements and extensions.
- Local solar that allows you to save up to \$180 annually on your electric bills by signing up with a qualified local solar farm.
- No-cost home energy assessments that may result in no-cost upgrades to your home, including light bulbs, thermostats, air sealing and insulation, and more.

Manage your monthly energy bills and stay comfortable at [energyadvisor.ny.gov](https://energyadvisor.ny.gov).
