General Description of Project (250 words or more):

Prattsburgh Wind Farm is a proposed 147MW Wind Farm consisting of up to 36 wind turbines and associated roads, collection, switchyard and substation and operations and maintenance facility. The project has received a draft permit from the Office of Renewable Energy Siting (ORES) on 12/29/23. The project is in the process of finalizing the LGIA and should have it completed by 3/1/24. The project anticipates the execution of a Host Community and PILOT agreement which will provide yearly benefits to the host communities over the life of the project.
