

Attachment B. Public Release of Bid Facility Information

Bid Facility Name:	Bald Mountain Solar
Proposer:	Bald Mountain Solar LLC
Technology:	Solar
Proposed Nameplate Capacity (Megawatts):	19.99
Location (Town/City and County):	Greenwich, N.Y. Washington County
NYISO Interconnection Queue Number (if applicable):	855
Interconnecting Utility:	National Grid
NYS PSC Article 10/ORES Case Number (if applicable):	
Located in Agricultural District?	Yes
Bid Facility Website (if applicable):	https://www.boralex.com/projects/bald-mountain/

General Description of Project (250 words or more):

Project Overview and Status: Bald Mountain Solar is a proposed 19.99 MW photovoltaic solar energy generation facility being developed by Boralex in the Town of Greenwich, Washington County. The Bid Facility will include solar arrays and other project infrastructure such as inverters, site roads, and a substation connecting to National Grid’s 115 kV line that bisects the Bid Facility area. Boralex has been working with the Town of Greenwich, landowners, and other local stakeholders to help ensure that the Bid Facility is properly integrated into the community. Throughout the development of this Bid Facility, Boralex has sought feedback from members of the community to inform the design.

The Bid Facility will provide significant economic, social, and environmental benefits to New York State, Town of Greenwich, and Washington County, including: significant tax revenues to the town, county and schools; full-time construction jobs; long-term jobs to support operations; and

procurement of materials and services from local sources. This Bid Facility will boost the local economy and add commerce for local businesses while also helping New York State achieve its goal of 70% clean power generation by 2030.

Background on the Project Developer: Bald Mountain Solar LLC is a wholly owned subsidiary of Boralex Inc (Boralex) that is located in the United States. Boralex is a renewables energy project developer, owner and operator based in Canada and firmly established in the United States, France, and the United Kingdom. Boralex specializes in four types of power generation: wind, hydroelectric, solar, and battery storage, and has installed operational capacity of approximately 3,000 MW. Boralex operates seven hydropower facilities in New York State and its local office is located in the Village of South Glens Falls. It serves as a hub for its Operations and Development teams, who carry Boralex's New York State-based activities. Boralex is a public company whose shares are listed on the Toronto Stock Exchange under the ticker symbol BLX.
