

Date: January 31, 2024

Subject: Alle-Catt Wind Energy Community Engagement Plan – RESRFP23 Bid

Dear NYSERDA bid reviewers,

In response to RESRFP23 Section 4.3.8 Community Engagement, Alle-Catt Wind Energy LLC (ACWE) is providing the enclosed Public Involvement Program (PIP) Plan that was prepared, submitted, and approved under Article 10 and was published to the DMM in August 2017. The outreach described in the attached PIP was carried out in full, as the Appendix D Meeting Logs indicate. In addition to the PIP Plan, ACWE has prepared the following responses to supplement the submission requirements for Community Engagement:

- 1) *Identify the Authority Having Jurisdiction (AHJ) and taxing School District, including local elected officials' names, contact information and tenure.*

Refer to page 17 of Attachment 1 ACWE PIP Plan for the complete list of stakeholder contacts. Updated 2024 elected officials' information identified below:

Host Community	Town Supervisor	Town Clerk
Town of Arcade	Douglas Berwanger	Michelle Bijhouwer
Town of Freedom	Dustin Bliss	Mindy Holland
Town of Rushford	Dennis Bliss	Tracy Pastorius
Town of Centerville	Marc Bliss	Barbara Covert
Town of Farmersville	Pamela Tilton	Bridget Holmes
Town of Yorkshire	Marcia Lexer	Donna Lavery

- 2) *Detail outreach strategies and activities the Proposer has implemented to date and will use to engage stakeholders and interested parties, including affected agencies, and to encourage public involvement throughout the pre-award, development, construction, and operation phases (consistent with the Project Milestone Schedule), including methods of communication and specific channels the Proposer intends to use to disseminate Bid Facility information.*

Refer to the updated Appendix D – PIP Tracking Report (Attachment 2 herein) which provides a chronological record of meetings to date. During the permitting phase of the project development, we held 5 open houses, 1 public hearing, took out 16 ads in local newspapers, and mailed over 36,000 postcards to local addressees over 4 years in the project area notifying them of public events and project information.

- 3) *Applicability of the Climate Act goals regarding benefits to Disadvantaged Communities (DACs) that would be realized with the development and construction of the Bid Facility.*

A portion of Alle-Catt Wind in Cattaraugus County is directly within DAC Census Tract 36009960800. The PILOT agreement and IDA fee with Allegany County have been identified to benefit Disadvantaged Communities as these payments will benefit the entire county, which includes several DACs. Additionally, both the BOP contractor and the POI contractor are located within DACs, and projected spend with them will collectively total \$332M. This is equivalent to 40% of the Project total in-state spend within DACs.

More broadly, Alle-Catt Wind is a component of the Clean Path NY (CPNY) Tier 4 resource portfolio. Clean Path NY is establishing a \$270 million dollar Community Investment Fund (Fund) targeting DACs. All of CPNY's generation projects and its transmission component each contribute financially to participate in supporting the Fund, which is in the process of launching.

- 4) *Planned frequency of public events and the anticipated duration, in years, of the public engagement events of community outreach, and strategies to ensure that public engagement events are widely attended by a representative cross section of host community residents.*

Public events and community outreach events are detailed in Section 5, beginning on Page 9 of the Attached PIP. As noted above, the public outreach component of this project's development has been completed, beginning in 2016, concluding in

2020 for its most active phase, and continuing to the present in the form of continued attendance at nearly all town board meetings, and continued engagement with other local officials.

5) *Details of the direct benefits to the community the Proposer will advance, which may include a local ownership stake in the facility, reduced energy bills for those with homes or businesses in the Bid Facility's vicinity, and/or other direct benefits.*

With the award of a contract under RESRFP -2023, Alle Catt would provide \$340,000 annually in energy bill credits to local homes and businesses in the host towns.

6) *Details on past/planned engagement regarding payments in lieu of taxes (PILOT) agreements or host community agreements (HCAs).*

HCAs have been executed in all five host towns and the two counties that allow wind PILOT agreements, Allegany and Wyoming Counties. The Cattaraugus County IDA does not issue PILOTs to wind projects per county policy, so no PILOT is in place in that county.

7) *Describe local interests and concerns, including identifying plans to thoughtfully build support for and respectfully responding to any opposition to the Bid Facility.*

ACWE has conducted years of intensive local stakeholder work to manage the very small but vocal opposition groups, which include Concerned Citizens of Cattaraugus County, Farmersville United, Freedom United. At this stage of development, all concerns that could be addressed by design changes have been accommodated.

8) *Identify strategies the Proposer will use to mitigate concerns raised by the public regarding the Bid Facility. This may include visibility and viewshed Impact mitigation efforts, accommodations to co-locate agricultural activities, or other issues of importance to the host communities.*

Through more than two decades of energy development throughout the United States and internationally, Invenergy attributes its success in construction of energy projects to maintaining an active presence in the community, building relationships locally, and working diligently to defend the project against misinformation, legal challenges, and continuing to advance the economic benefit packages the project will offer the host communities. ACWE is already in possession of every major permit required to construct the project and has been conducting a rigorous community outreach effort since its inception. Additionally, as part of the Article 10 and Article VII compliance filings, ACWE will submit public notification requirements concerning construction schedule and a complaint handling plan, as well as share the received complaints with the host community town boards. Furthermore, ACWE had prepared and will manage a traffic control plan coordination with local highway superintendents, and including outreach to Amish elders, noise compliance testing post commercial operation date, shadow flicker modeling and mitigation and restoration requirements.

9) *Method for soliciting feedback and input from the public and affected agencies and the process for sharing feedback and responses publicly.*

Refer to Section 5, beginning on Page 9 of the attached PIP. Additionally, ACWE has prepared complaint handling procedures as a requirement of the Article VII and Article 10 Certificate conditions which allows the public to submit complains and concerns of the project to the project team, which will also be shared with the host community Town Boards.

Please note that the attached PIP Plan is being submitted except for original Appendices B-D to comply with RESRFP23 pagination requirements.

Sincerely,

Marguerite Wells

Vice President, Renewable Development, Invenergy

1 Introduction

Alle-Catt Wind Energy LLC (ACWE) plans to submit an application to construct a major electric generating facility under Article 10 of the Public Service Law. Pursuant to the rules of the New York State Board on Electric Generation Siting and the Environment (Siting Board), applicants proposing to submit an application to construct a major electric generating facility under Article 10 must submit a Public Involvement Program (PIP) Plan. The PIP must be submitted to the Department of Public Service (DPS) for review at least 150 days prior to filing a Preliminary Scoping Statement (PSS). This document is the PIP plan for the Alle-Catt Wind Farm (the Project), a wind energy facility described in Section 2.

As required by 16 NYCRR § 1000.4, this PIP describes the steps ACWE plans to take to inform, engage, and solicit input from the local community, general public, and other stakeholders. Stakeholder concerns, interests, local knowledge, and recommendations will be evaluated and considered by the Applicant and Siting Board.

2 Applicant and Project Description

2.1 Company Profile

Alle-Catt Wind Energy LLC is an affiliate of Invenergy Wind North America LLC (Invenergy). Invenergy is a utility-scale power producer developing, constructing, and operating renewable energy projects in the New York State energy market. Invenergy-owned energy projects operate under the supervision and regulatory authority of the New York State Public Service Commission (PSC) and the Federal Energy Regulatory Commission (FERC). Invenergy and ACWE management offices are located in Chicago, Illinois.

Invenergy has developed over 60 wind farms in the United States, Canada, and Europe including the following three New York wind farms:

- High Sheldon Wind Farm, 75 turbines in the Town of Sheldon, Wyoming County, NY.
- Orangeville Wind Farm, 58 turbines in the Town of Orangeville, Wyoming County, NY.
- Marsh Hill Wind Farm, 10 turbines in the Town of Jasper, Steuben County, NY.

Invenergy also has developed and constructed six utility-scale solar projects in North America, totaling 144 MW installed to date, including one co-located at one of its wind farms. Invenergy is also constructing the 24.9 MW Shoreham Solar Commons facility in the Town of Brookhaven in Suffolk County, NY.

Invenergy provides wholesale electricity to the public using clean, renewable sources such as wind and solar. This furthers the federal government's policy as articulated in 42 U.S.C. 9201 to "hasten the widespread utilization of [wind energy] systems," as well as the State of New York's renewable energy policy, which requires 50% of the State's energy to come from renewable sources such as wind by the year 2030.

ACWE intends to construct, own, operate, and maintain all components of the Project, except for the interconnection switchyard which will be constructed by ACWE, and then transferred to National Grid, who will own, operate, and maintain the switchyard.

2.2 Project Summary

Project Facilities

ACWE is planning the Project to have a maximum generating capability of 380 megawatts (MW) from an estimated 80-120 wind turbines located on land leased from owners of private property located in the Towns of Arcade in Wyoming County, Centerville and Rushford in Allegany County, and Freedom and Farmersville in Cattaraugus County, New York (Figure 1).

Project facilities will include commercial-scale wind turbines, access roads, buried and overhead electric collection lines, a Project substation, meteorological towers, an operation and maintenance (O&M) building, and electrical interconnection facilities. The anticipated life of the project is approximately 40 years. ACWE anticipates the interconnection facilities will include an overhead 345-kV interconnection line approximately 4 miles long from a Project substation in the Project Area to a new 345-kV switchyard in the Town of Yorkshire to be built adjacent to the existing Homer City-Stolle Road 345 kV line owned by NYSEG and National Grid. This transmission line is subject to a separate permitting process called Article VII. ACWE anticipates submitting Article VII and Article 10 applications concurrently for parallel review. Article VII process also includes stakeholder engagement, public events and maps, similar to the Article 10.

Energy Generation

ACWE estimates the Project will operate at an annual net capacity factor (NCF) of 32%. This means the Project, if built at the maximum expected generating capacity of 380 MW, would generate approximately 1,065,000 megawatt hours (MWh) of energy per year. This will be enough electricity to meet the average annual consumption of 98,000 or 147,000 households, based on average annual household electric consumption of 10.8 MWh for the U.S. and 7.2 MWh for New York State, respectively (EIA, 2014).

Economic Benefits

The Project would have positive socioeconomic impacts of permanent O&M jobs, temporary construction employment, lease payments to landowners, and a new source of revenue for schools, fire departments, county government, and town governments. National Renewable Energy Laboratory's (NREL) Jobs and Economic Development Impact (JEDI) model estimates Project construction will create approximately 182 jobs with a payroll of \$15 million. To operate and maintain the Project, ACWE estimates it will hire approximately twelve to fifteen full time employees to be located at the site. The construction jobs would last approximately one year, and the operations and maintenance jobs would last for the life of the Project.

The Project plans to enter into a PILOT agreement with the County Industrial Development Agencies and it will be subject to special district taxes. Specific estimates of amounts the Project might pay to different jurisdictions will depend on the Project layout and structure of the agreements. Based on similar arrangements at other wind projects in New York, ACWE estimates a 380 MW project will generate approximately \$3,200,000 per year in taxes and tax-related payments to the county, towns, school districts, and fire departments that serve the parcels where ACWE installs Project facilities. It will also result in approximately \$3,000,000 a year in land payments to leaseholders with the project.

2.3 Project Area and Study Area

Figure 1 shows the regional Project location, preliminary Project Area and preliminary Study Area for the Project. For purposes of this document, ACWE defines these areas as follows:

- The Project Area bounds all tax parcels on which ACWE expects to locate Project facilities. As shown in Figure 1, the Project Area is roughly flag-shaped, running from the Village of Arcade in the north, to the town of New Hudson in the south, with the Allegany-Cattaraugus County Line bisecting it, and the Wyoming County line forming much of the northern boundary. It includes approximately 86,000 acres of land.
- The Study Area is all areas within 5 miles of the Project Area.
- Portions of Farmersville, Swift Hill, Bush Hill, Lost Nation, and Crab Hollow State Forests, Harwood Lake Multiple Use Area, and Hanging Bog Wildlife Management Area, are included in the Project Area, but no wind turbines are proposed to be located on state land.

The Study Area includes portions of the towns of Arcade, Centerville, Freedom, Farmersville, New Hudson, Rushford, Yorkshire, Eagle, Pike, Hume, Caneadea, Franklinville, Lyndon, Machies, Cuba, Ischua, Belfast, and Sardinia. This includes portions of Allegany, Erie, Cattaraugus, and Wyoming Counties.

3 Public Involvement Program Overview

3.1 PIP Goals

ACWE developed this PIP to ensure comments of individuals and groups with a potential interest in the Project are incorporated and objectively considered in the Project design and review. Specific PIP goals are to:

- Identify groups and individuals with a potential interest in the Project, i.e., “stakeholders;”
- Ensure stakeholders and the general public are aware of the Project;
- Ensure stakeholders can relatively conveniently access information on the Project and the Article 10 review process;
- Engage stakeholders to understand their interests related to the Project, so that ACWE can work with them to address their concerns and take them into account as the project moves forward
- Gather specific information from stakeholders that can be used to design objective and useful studies to be defined in the Preliminary Scoping Statement and included in a complete application for the Project.

3.2 PIP Schedule

ACWE began conducting PIP activities during the pre-application phase in April 2016, and it will continue until the Project begins commercial operation. Section 5 discusses specific PIP activities and their schedules.

3.3 Stakeholder Involvement

Stakeholder Notifications

ACWE will notify stakeholders of the important Project milestones listed below. Stakeholder notifications will be by US Mail, except as discussed below for area residents and except for stakeholders that express a preference for email notification. Different kinds of stakeholders are identified in Section 4 below, and Section 5 discusses notifications in greater depth.

- Open Houses
- Preliminary Scoping Statement (PSS) Submittal
- Application Submittal
- Public Hearing
- Siting Board Decision
- Commencement of Construction
- Commercial Operations Date

Collection of Stakeholder Input

For stakeholder groups in sections 4.1-4.12 below, ACWE will reach out to the point of contact to introduce the Project and offer to meet with the stakeholder group or point of contact. During stakeholder discussions ACWE will introduce Invenergy, the Project, and the Article 10 review process, including intervenor funding. ACWE

will solicit specific feedback on issues that stakeholders want considered in the Project design or review. ACWE will track this feedback in a comment log as discussed in Section 5.

Depending on the number of individual stakeholders, it may not be practical to contact each individually. As discussed in Section 5, ACWE will develop materials, maintain a project website, and host events designed to inform landowners and residents. These materials, events, and the website will describe the Project and ways to submit input during the Article 10 review process.

Distribution of PSS and Application Documents to Stakeholders

ACWE will notify stakeholders when the PSS and application are available on the Project website and at various document repositories. ACWE does not intend to provide individual hard copies of these documents to Stakeholders except as required by 16 NYCRR §1000.5 and 16 NYCRR §1000.6.

4 Stakeholders

ACWE has identified several categories of “stakeholders.” Overall, ACWE relied on its experience developing other projects, review of PIPs filed for other projects, discussions with local officials, and the knowledge of its local representatives to identify potential stakeholders. Certain agencies are included as stakeholders as mandated by Article 10 regulations. Descriptions of stakeholder categories and the methods used to identify them follow. Appendix A lists the Project stakeholders and their contact information, as currently known by ACWE. ACWE will continuously update the stakeholder list to add or remove stakeholders as it identifies new interested, or uninterested, parties during PIP implementation. The most current list will always be used for notifications.

Project outreach materials will contain instructions on how to be added to the stakeholder list. Individuals or organizations will be able to be added to the stakeholder list by calling a Project representative, calling a toll-free number, attending a public outreach event such as those for residents, or by sending an email to an address that will be posted on the Project website. Stakeholders can also be added to the list by US Mail, sent to Marguerite Wells, 863 Hayts Rd, Ithaca, NY 14850.

4.1 Host Communities

ACWE identified town boards and county boards representing any portion of the Project Area by review of town and county boundary maps, and these boards are considered stakeholders. Points of contact will be the Town Supervisors and the County Administrator(s) and the town and county clerks. Notices will be addressed to the full board, care of the point of contact, with the expectation that the point of contact will distribute the notices and information to the full board. ACWE will meet with the points of contact prior to submittal of the PSS and will offer to meet with the full boards.

4.2 County Agencies

County agencies, other than the county legislature, with areas of responsibility potentially affected by the Project were identified by review of the county website and consultation with the county planning department. Note that ACWE has identified the County Emergency Response Coordinators and Sheriffs as stakeholders and listed them under the category of “Emergency Responders.”

4.3 State Agencies

Departments of New York State government were identified in the Article 10 regulations, and by using ACWE's experience in developing wind projects in New York and by reviewing PIPs filed for other wind projects.

4.4 Federal Agencies

Agencies of the U.S. government were identified using ACWE's experience in developing wind projects in New York.

4.5 Legislative Representatives

Offices of the New York State Legislature, the U.S. Senate, and U.S. Congress representing the Study Area were identified by review of online district maps.

4.6 Highway Departments

County and town departments responsible for managing roads in the Study Area were identified by review of town and county boundary maps.

4.7 Schools

School districts serving parcels in the Study Area and school districts adjacent to these districts were identified by review of county tax maps.

4.8 Emergency Responders

Fire departments, emergency responders and police or sheriff departments serving parcels in the Study Area were identified by review of county tax maps.

4.9 Adjacent Municipalities

Towns, counties, villages, or other municipalities that are not host communities but are in the Study Area were identified by review of municipal boundary maps.

4.10 Utilities

Companies that own gas, electric, or communications infrastructure in the Study Area were identified by consultation with the County Planning Departments.

4.11 Public Interest Groups

Organizations that serve interests of the public in the Study Area were identified from discussions with the County Planning Departments and from the 2016 lists of county officials that includes county and town historians. This category includes business organizations, county and town historians, conservation or environmental organizations, and organized groups focused on use of the Project Area for outdoor recreation.

4.12 Airports and Heliports

Organizations operating FAA-registered airfields within 12 miles of the Study Area were identified by searching the FAA's database on licensed airports and heliports. The nearest public airport identified has a runway that is 3 miles from the nearest part of the Project Area. This airport is included as a potential stakeholder.

4.13 Participating Landowners

Property owners that have entered into lease, easement, purchase option, or setback agreements with ACWE that will allow construction of Project facilities on or near their property are considered "participating landowners."

Participating landowners are included in the stakeholder list as one group, but not individually. ACWE's private contacts with these landowners contains provisions for ACWE and landowners to work together on Project plans. These consultations are private discussions outside the scope of this PIP. In addition to private

communications with ACWE via mail or email, participating landowners living in the Project Area will be notified of Project milestones and events in the same manner as all residents of the Project Area.

4.14 Adjacent Landowners

Owners of property that with property within 2,500 feet of a wind turbine, or substation, or within 500 feet of other Project components (e.g., collection lines, met tower, O&M facility, etc.), and any additional landowners whose homes are within 5,000 feet of a turbine, but who are not participating landowners, are considered “adjacent landowners.” When a Project layout is developed, ACWE will identify these owners by review of tax records. These owners will receive mailings notifying them of Project milestones and events. ACWE plans to develop a Project layout prior to submission of the PSS.

4.15 Area Residents

Residents of the Study Area that are not participating landowners or adjacent owners are included in the stakeholder list as one group. ACWE plans to notify these residents of the Project individually by widespread mailing announcing the open houses to all unique addresses in the property tax rolls for the Study Area, and sharing basic outreach materials such as factsheets. This mailing will also include instructions on how to register as a stakeholder, in case the residents cannot attend the open houses but wish to remain informed. At the open houses, attendees will be encouraged to join the stakeholder list if they wish to continue to receive notice of future Project milestones (e.g., availability of the PSS, public hearing, etc.). After the open houses, ACWE does not plan broad mailings to area residents that do not register as stakeholders. These residents would still likely hear more of the Project through public outreach activities and notices in area newspapers.

5 Public Involvement Program Elements

5.1 PIP Activities, Schedule, and Goals

Appendix C lists the PIP activities ACWE plans to conduct and the tentative schedule and goals for each activity. In addition to the initial meetings, PIP activities will be conducted throughout the Article 10 process, including after the PSS and Application have been submitted.

Stakeholder Consultations

Stakeholder consultations will be arranged as described in Section 3. ACWE anticipates almost all stakeholders will be interested in a meeting or conference call. For any such stakeholder meetings or conference calls, one or more of the representatives identified in Section 5.2 will represent ACWE.

Topics covered during stakeholder consultations will vary depending on the stakeholder’s role and potential impact. Possible topics include payment in lieu of tax agreements, highway agreements, local laws, emergency response requirements, intervenor funds, and environmental impacts. Meetings will also specifically cover potential synergies or conflicts with stakeholder plans. Content of stakeholder consultation meetings will be documented in the PIP Tracking Report and comments received will be recorded as discussed in Section 5.5.

As appropriate, ACWE will conduct subsequent meetings to answer specific questions, and to discuss studies, mitigation, or other strategies that could address stakeholder concerns.

Appendix B provides a tentative schedule of initial consultations.

Town Board Meetings

ACWE presents at regularly-scheduled monthly board meetings of the local town and village boards in the Project Area. ACWE will also request to present the project to the County Legislatures at one of their regularly-scheduled meetings.

As part of the presentation given at each meeting, ACWE introduces Invenergy, the Project, and the Article 10 process, including Intervenor Funding, and will respond to questions from the board and members of the public.

ACWE representatives will be available to attend future town board meetings as requested by the boards, or to adjacent communities in the Study Area at their request

The above meetings and any future presentations at town board meetings will be documented in the PIP tracking report.

Open House

ACWE will hold two open house-style public meetings in 2017 with representatives of ACWE's development team participating in the meetings. The meetings will feature poster displays on the Project, wind energy, and the Article 10 review process, including the process and availability of Intervenor Funding. Hand-outs and sign-up for stakeholder status will also be presented. As part of the presentation, ACWE will emphasize the role of stakeholders and encourage interested area residents to join the stakeholder list. Open Houses will also be held in future to keep the public informed on the project status.

The open houses will be advertised at town board meetings, by mailings to stakeholders (including to all study area residents as described in Section 4.15), on the Project website, and in the newspapers listed in Section 5.2 with at least two weeks' advance notice.

As part of its mailing to stakeholders on the open house, ACWE will include instructions on how to contact ACWE if a stakeholder is unable to attend an open house and would like to schedule a one-on-one meeting, a conference call, or attend another open house.

The Study Area contains two potential Environmental Justice Areas, as discussed below in Section 6. It also contains Amish communities. These residents will be reached out to with all the means described elsewhere in this PIP. By providing local and toll-free phone numbers, mailing addresses for those who do not use the internet, paper flyers on community bulletin boards, and ACWE's regular attendance at local town meetings, we encourage dissemination of information within the entire community, regardless of income or technology preferences.

5.2 Communication Tools

Project Representatives

Invenergy has three representatives available to implement this PIP and answer questions from stakeholders:

Marguerite Wells
New York Developer
863 Hayts Rd
Ithaca, NY 14850
mwells@invenergyllc.com
(607) 330-0399

Mike Mulcahey
Local Representative
mmulcahey@zitomedia.net
(814) 558-7514

Scott Johnson
Local Representative
sajohnson813@gmail.com
(814) 558-7314

Contact information for local representatives is posted on the project-specific website. Additionally, this information will be made available at stakeholder consultations, town board meetings and open houses.

Toll-Free Number

Invenenergy also maintains a toll-free number (1-866-378-4580) connected to an automated voicemail that it will advertise on the Project website and monitor for questions on the Project. This line is not dedicated, so callers should identify the project they are calling about. Callers will receive responses within five days of leaving a message, or sooner when possible.

Website

ACWE has established a user-friendly website dedicated to the Project and written in plain English. It is located at www.Alle-Catt.com. ACWE will update the website as the Project develops and more information becomes available. When available, the following items will be posted on the website:

- Project description and location;
- Project benefits and need;
- Project layout maps;
- Project milestones and timeline
- Project contact information, including an email address and a telephone number local to the Project Area;
- Summary of the Article 10 process;
- Summary of the intervenor funding process with instructions on how to apply;
- Addresses of local document repositories;
- Links to the Article 10 siting board webpage and to case-specific documents file for the Project;
- Notices for public outreach events, filings, and public hearings;
- PIP tracking report,
- Publications or educational materials presented at the open house(s) or distributed to stakeholders;
- Instructions on how to join the stakeholder list.

Document Repositories

ACWE will maintain hard copies of the PIP, the PSS, and the application, plus any additional outreach or informational materials, at the following locations:

- Arcade Town Hall, 15 Liberty St., Arcade, NY 14009
- Arcade Free Library, 365 Main St., Arcade NY 14009
- Centerville Town Hall 10965 Rushford Rd, Centerville, NY 14065
- Farmersville Town Office, 8963 Lake Ave., Franklinville, NY 14737
- Freedom Town Hall, 1188 Eagle St., Arcade, NY 14009
- Rushford Town Hall, 8999 Main St., Rushford, NY 14777
- Rushford Free Library, 9034 Main St, Rushford, NY 14777
- Yorkshire Town Hall, 17 Prospect St. Delevan, NY 14042

Notifications to the General Public

In addition to the mailings to stakeholders discussed above, ACWE will publish notices as required by the Article 10 regulations. Notices of PSS and application filings will be mailed to all stakeholders, including host and adjacent landowners, and anyone who has joined our stakeholder list, will be published on the Project website, and in the following newspapers of record for the host community towns:

- Cuba Patriot. www.cubapatriot.com
- Arcade Herald. www.mywnynnews.com/arcade_warsaw/

5.3 PIP Materials

For initial presentations given at town board meetings and at open house(s), ACWE will present information on ACWE, the Project, and the Article 10 process including intervenor funding. Presentations will contain maps, timelines, and other Project-specific material developed by ACWE.

PIP materials will cover some wind energy basics, but most residents are generally familiar with wind turbines, as the Noble Bliss, located in the northern part of the Study Area, was constructed ten years ago. ACWE materials will be focused on unique aspects of ACWE and the Project, the Article 10 review process, and how the wind technology used in the Project will compare to the turbines already in the area.

At the open house, ACWE will have poster board displays on topics such as:

- environmental, emissions offset, and fuel offset benefits of wind energy,
- expected changes in turbine dimensions and technology during the period when the Project will be in development,
- sound emission levels for a typical turbine model that might be used for the Project;
- Project schedule;
- economic benefits of the Project to the local economy;
- Project Area, Study Area, and proposed turbine layouts when available.

For meetings following the open house, ACWE anticipates the items of most interest will be maps showing proposed locations of project facilities. ACWE will generate such maps in large format for display as part of its presentations after the open house.

ACWE has developed materials on the above topics using information from its wind turbine suppliers, its knowledge of the Article 10 process; and industry sources such as the American Wind Energy Association. Versions of these materials are available on the Project website.

5.4 PIP Tracking Report

ACWE will maintain a log documenting PIP activities, meetings, and consultations. For each event, the log will document the event date, location, attendees, summary of topics discussed, and any follow-up steps.

Every three months, ACWE will file the PIP tracking report with the Secretary to the Commission and post it on the Project website.

5.5 Comment Tracking

ACWE will maintain an internal log of comments or questions that are not simply answered or that may have interest to a broad audience. ACWE will refer to this comment log in development of the PSS and application to ensure that comments are being adequately addressed.

6 Environmental Justice Areas

The New York State Department of Environmental Conservation (NYSDEC) provides map files of Potential Environmental Justice Areas it identifies as census block groups from the 2000 census with populations that meet one or more of the following thresholds:

- 51.1% or more of the population in an urban area reported themselves to be members of minority groups; or

- 33.8% or more of the population in a rural area reported themselves to be members of minority groups; or
- 23.59% or more of the population in an urban or rural area had household incomes below the federal poverty level.

One Potential Environmental Justice Area is within the Project Area, in the Town of Centerville.

- Census Block Group ID: 360039503002 is located in the northeast corner of the Project Area. This area is in the town of Centerville. It's categorized as a rural area, and 2010 census statistics show 3.5% are minorities and 27.7% are below the federal poverty level.

Outside the Project Area, but within the Study Area, is the following Potential Environmental Justice Area:

- Census Block Group ID: 360039502001 is located approximately 7 miles east of the Project Area. This area is in the Towns of Granger, Grove, and Hume. It's categorized as a rural area, and 2000 census statistics show 2.7% are minorities and 25.8% are below the federal poverty level.

7 Language Access

Article 10 regulations require the PIP to identify any language other than English spoken (1) by 5,000 or more persons, according to United States Census data, residing in any 5-digit zip code postal zone in which any portion of such zone is located within the Study Area; and (2) by a significant population of persons residing in close proximity to the proposed facility, alternative locations, or interconnections.

Table 1 lists the 5-digit zip codes extending into the Study Area and the most prevalent non-English languages spoken. As shown by Table 1, there are no zip codes touched by the Study Area where 5,000 or more people do not speak English. The Spanish-speaking numbers are included in the Non-English totals, and are a subset thereof.

Table 1. Number of Residents of Study Area Zip Codes by Primary Language Spoken at Home

Zip Code	Post Office Name	English	Non-English	Spanish
14009	Arcade	5212	144	32
