Program Overview
What is NY-Sun?

> NY-Sun is a NYSERDA initiative that administers programs to drive growth in the solar industry and to ensure a coordinated, well-supported solar energy expansion plan and a transition to a sustainable, self-sufficient solar industry.

> In April 2022, NY-Sun was expanded to support Governor Hochul’s goal for New York to reach 10 GW of installed distributed solar PV by 2030.

> As part of the Solar Energy Equity Framework (SEEF) NY-Sun is committing funding to solar benefitting low-to-moderate income (LMI) households, affordable housing, environmental justice communities, and disadvantaged communities. This includes the Predevelopment Program as well as additional incentive funds for solar installations serving these groups.
Predevelopment Program Overview

> Applications accepted from **June 30, 2020 – December 31, 2029**

> Provides grants up to **$200,000** for the implementation and operation of solar and/or energy storage installations benefitting **affordable housing** and/or **community-led** solar installations that will offer benefits to LMI households

> Grant applicants may include multifamily affordable housing providers, community organizations or agencies, and technical service providers (such as in energy, legal, or finance) working in partnership with any of these entities

> Eligible projects may be located anywhere in New York, including the PSEG-Long Island service territory
Review Process

> Applications will be reviewed on a quarterly basis: next deadline is **September 30, 2022**

> Applications **may** be reviewed prior to the quarterly deadlines, in the order they are received

> Additional information may be requested from the applicant

> Following the quarterly submissions, a review committee will score all complete and eligible applications

> Notification of awards are expected to take place 4-6 weeks after each quarterly deadline

> Approved applications begin contracting phase, which includes finalization of project Statement of Work and budget

> Contracting may take an additional 4-6 weeks depending upon project complexity
Timeline

- September 30: Q3 2022 Submission Deadline
- December 1: Q4 2022 Webinar (tentative)
- December 31: Q4 2022 Submission Deadline
- March 2: Q1 2023 Webinar (tentative)
- March 31: Q1 2023 Submission Deadline
- December 31: Q4 2022 Submission Deadline
- September 30: Q3 2022 Submission Deadline
> **Regulated affordable housing** – defined by participation of a property in one of the following programs:

- US Department of Housing and Urban Development (HUD) regulated affordable housing
- New York State Homes and Community Renewal (HCR) regulated affordable housing
- Low Income Housing Tax Credit financing
- New York City Department of Housing Preservation and Development (HPD) regulated affordable housing (or other local housing agency)
- SONYMA Mortgage Insurance financing
- Weatherization Assistance Program
- Housing Finance Agency’s (HFA) 80/20 Program
- New York City Housing Development Corporation’s (HDC) 80/20 or Mixed Income Programs
- Office of Temporary and Disability Assistance (OTDA) Temporary and Supportive Housing Programs
- US Department of Agriculture (USDA) Rural Assistance Program
> **Technical service provider** – examples include solar/energy storage developers, legal firms, financial firms, green energy education organizations, etc.

> **“in partnership with”** – refers to the requirement that technical service providers must collaborate with multifamily affordable housing providers and/or community organizations or agencies (documented via team agreements, sub-contracts, letters of intent, etc.).

> **Multifamily home** – accommodates greater than four families.

> **Single-family home** – accommodates between one and four families.

> **Community-led projects** – projects that incorporate a community/cooperative ownership model and/or grant applications led by community-based organizations.
Program Updates
# Program Updates

<table>

<td>Timeline</td>
<td>No update as of June 2020</td>
</tr>
</tbody>
</table>
The Inflation Reduction Act (IRA), a bill proposed for passage in the U.S. Congress, may affect the recommendations made in these draft program rules herein if enacted. Although the financial impact of each item or combination of items under deliberation in the IRA are not calculated at this time, the potential impact of the proposed changes on individual project economics, as well as total program costs, are likely to be significant.

If the IRA is enacted, NYSERDA may update these rules to reflect relevant adjustments to the incentive rates.
On April 14, 2022, the New York Public Service Commission (PSC) approved the Order Expanding NY Sun Program. This Order approved the budget and program design in the Roadmap, with several modifications.

The Order provides an additional $252M to the Solar Energy Equity Framework (SEEF), which supports projects serving LMI households, regulated affordable housing, and disadvantaged communities (DACs). The Predevelopment Program is one of the initiatives extended under the NY-Sun Program expansion.
Con Edison Nonresidential Changes

> Nonresidential solar projects in Con Edison will now be eligible for a new incentive structure:

<table>
<thead>
<tr>
<th>Incentive Type</th>
<th>Project Size</th>
<th>Total Block Size</th>
<th>Revised Incentive Rate ($/Watt)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nonresidential – Small</td>
<td>0-200 kW</td>
<td>50 MW</td>
<td>$1.20</td>
</tr>
<tr>
<td>Nonresidential – Medium</td>
<td>200 kW-1 MW</td>
<td>100 MW</td>
<td>$1.00</td>
</tr>
<tr>
<td>Nonresidential - Large</td>
<td>&gt; 1 MW</td>
<td>150 MW</td>
<td>$0.50</td>
</tr>
</tbody>
</table>
In accordance with the changes to the Nonresidential incentive in the Con Edison region, the Multifamily Affordable Housing Incentive will also increase in Con Edison:

- Non-CDG projects (i.e., remote crediting and onsite): $1.60/Watt total NY-Sun incentive
- CDG projects that will not receive the Community Credit: $2.00/Watt total NY-Sun incentive

The $1.60/Watt or $2.00/Watt total incentive levels are maintained as the base NY-Sun incentives step down, providing certainty to customers and developers.

Eligible projects receive MAHI up to 200 kW, capacity above 200kW will receive the applicable nonresidential base incentive.

The Multifamily Affordable Housing Incentive is not stackable with other adders, including the Community Adder, ICSA, and rooftop/canopy adder.

There are no changes to the $1.00/W incentive for projects in the Upstate and Long Island regions.
The Inclusive Community Solar Adder is available for CDG solar projects serving low to moderate (LMI) subscribers, affordable housing, and other non-profit facilities serving disadvantaged communities (DACs).

ICSA Round 1: **400+ MW** of projects awarded

- Order directs NY Sun to expand the ICSA to "further drive distributed solar development that directly benefits LMI customers."

ICSA Round 2: Program will be revised and shared with stakeholders prior to launch

- Modifications based on Order, Round 1 experience, and stakeholder comments
- Stakeholder feedback process: Round 2 details shared in late May/early June, ~3 weeks for review and feedback
- Round 2 launch planned for **Summer/Fall 2022**
Compelling Predevelopment Program applications will provide the greatest possible benefits to LMI households

- The Inclusive Community Solar Adder (ICSA) is available for CDG solar projects serving low- to moderate income (LMI) subscribers, affordable housing, and other facilities serving disadvantaged communities (DACs).
- For more information about the ICSA, visit NY-Sun’s ICSA page

Predevelopment applications that include ICSA projects are subject to additional criteria:

- Minimum percentage allocation of 60% of solar credits to a mix of either eligible residential or affordable housing/nonresidential subscribers
- Guaranteed savings of at least 15%
- Documented partnership with a community-based organization
Supported Activities
Supported Activities (Part 1)

> Organizing a project business model and securing financing
> Early stage project planning, project team organization, and site identification
> Development of cooperative or community ownership models
> Procuring services from solar and/or storage developers
> Preliminary site assessments
> LMI customer outreach and enrollment
> Development of project models that allocate benefits to residents of affordable housing and/or an environmental justice (EJ) community
Supported Activities (Part 2)

- Aggregated purchasing of solar and/or storage for LMI households
- Models for the promotion of cooperatives and other community ownership structures to provide LMI community ownership opportunities of solar and/or storage projects
- Financial analysis of solar and/or storage project viability including business analysis, savings estimate, and intended use for the project
- Securing of project financing or credit enhancement for project
- Resiliency enhancements activities for LMI households, EJ communities, or disadvantaged communities by solar and/or storage projects, which includes, but are not limited to, predevelopment and technical assistance activities related to back-up systems for critical power loads in affordable housing and/or other community facilities serving LMI households
How to Apply
How to Apply

> Interested applicants should visit the program page for a brief overview of the program including basic eligibility requirements.

> The funding opportunity page contains all necessary materials to submit an application (i.e., program solicitation, draft standard agreement, and program application).

> Project applications are comprised of the project detail, work plan, and budget.

> Once you have completed all required materials, applications must be submitted via the online application portal.
Future Webinars

> As part of this quarterly series, a webinar will be held approximately one month before each rolling submission deadline

> Future webinars may highlight past Predevelopment projects and include guest speakers

> Announcements will be sent via email approximately one month in advance
Sign up to receive emails from NY-Sun

> Go to nysolar.ny.gov/ny-sun

> Click “Contact Us” in the navigation menu

> Scroll down the page and click “Sign up to receive the latest updates on NY-Sun”

> Enter your information and be sure to select “Affordable Solar (Low-to Moderate-Income)” under “Email Lists”

Affordable Solar (Low-to Moderate-Income):
Information and updates on programs serving the low-income population to include Affordable Solar and Affordable Solar Predevelopment and Technical Assistance.
Add our email to your contacts

> To ensure delivery to your inbox, add solarannouncements@nyserda.ny.gov to your contacts.

> In Outlook, open an email message from solarannouncements@nyserda.ny.gov then hover over the sender’s name with your cursor. Click the “more options” button and then the “add to contacts” button. Follow the instructions to add the email address to your contacts.

> In Gmail, open an email message from solarannouncements@nyserda.ny.gov then hover over the sender’s name with your cursor. In the pop-up contact details, click the “add to contacts” icon to the right of the sender’s name.
Appendix
How to Apply

> Project applications are comprised of the project detail, work plan, and budget

> The documents are fillable PDFs that contain all important details about your proposal including project team and projects goals

> Any additional materials (e.g., letters of support) may be included alongside the application as attachments
How to Apply

> The draft Work Plan contains the framework that will describe project milestones

> Draft Statements of Works that are submitted are not final, but should reflect all planned activities

> Applicants are strongly encouraged to follow structure of listing the responsible party for each milestone activity as well as for numbering outcomes

> Projects may invoice upon full completion of each milestone
How to Apply

> **Contract Execution Milestone** – Execute NYSERDA agreement with Final Work Plan

> **Mobilization** – Establish a detailed project management plan and operating procedures for the project

> **Midpoint Milestone(s)** – Make significant progress towards or reach partial completion of project outcomes

> **Substantial Completion Milestone** – All major project outcomes have been or are close to completion

> **Project Deployment** – At the close of the agreement, the project team should be ready to initiate next steps, such as the deployment of the business model and/or construction of the solar electric and/or storage system
How to Apply

The Draft Standard Agreement is included so that interested applicant may review all NYSERDA standard terms and conditions in advance of submitting an application.

These conditions are set at the State level and are not subject to change or negotiation.
How to Apply

> After reviewing the solicitation summary and filling out the required attachments, the [online application portal](#) will allow you to submit the application.

> The solicitation summary and required attachments are available via the [funding opportunity page](#).

> Additional links to the key application documents are also available via the portal.

**Affordable Solar and Storage Predevelopment and Technical Assistance**

**Proposal Documentation Application**

Please use this form to electronically submit the documentation for your Affordable Solar and Predevelopment and Technical Assistance application.

Please note: Partially completed information cannot be saved, be sure to have all details with you before beginning the form. Upon submission, you will receive a confirmation and a tracking number on your screen to print or save. Refer to this tracking number to check the status of your request.

The following files are required to complete your submission. Attach them in the “Uploads” section:

- [Predevelopment Project Detail](#)
- [Proposed Work Plan](#)
- [Project Budget](#)

Letters of support and other documentation may be uploaded via the “Additional Support Documentation” option.
How to Apply

> In addition to the Project Detail, Work Plan, and Budget, you may upload multiple attachments via the Additional Support Documentation option.

> After submitting an application, you will receive an automated email with your application number.

> This automated message will also include links to all submitted attachments.
Other NYSERDA Programs & Resources
For Multifamily Buildings
> **Cost-share technical assistance services:**
  - 50% cost share of energy audit and other studies
  - Can be combined with MPP incentives
  - Use it for standalone studies or as part of your MPP project
  - Use a FlexTech Consultant or Independent Service Provider

> **For more information, visit**
  [nyserda.ny.gov/flextech](http://nyserda.ny.gov/flextech)
On-site Energy Manager (OsEM) Program

> Hire On-site Energy Manager & NYSERDA will subsidize the salary
  • Provides up to 75% cost share for having an on-site energy manager
  • Minimum requirements: 20 hours per week, 1 year engagement
  • Can manage multiple buildings

> For more information, visit nyserda.ny.gov/osem
Technical support and incentives to improve your building through energy efficiency upgrades

- Comprehensive energy efficiency program
- Project must yield at least 15% energy savings relative to the building’s energy use
- Utilizes vetted Providers in Multifamily Building Solutions Network
- Program is technology agnostic
- Additional incentives for MPP projects with heat pump measures

For more information, visit nyserda.ny.gov/mpp
Spearheading the creation of standardized, scalable solutions and processes that will improve the aesthetic and comfort of New York’s buildings while improving their energy performance

• Building Owners & Developers: make your operating costs more manageable with the RetrofitNY approach
• Solutions Providers & Manufacturers: transform how buildings are renovated and explore development of key technologies needed for RetrofitNY

For more information, visit nyserda.ny.gov/retrofitny
Cost-share for installation and ongoing support for real time data monitoring and analytics

- Gain real time visibility into your current and historical energy performance
- Improve the reliability and uptime of systems with automated predictive capabilities
- Covers: hardware, installation, and ongoing support
- Must partner with an approved RTEM vendor
- Service contract for up to 5 years after installation

For more information, visit nyserda.ny.gov/rtem
> Improve the skills of existing building operators and maintenance workers
• Provides funding to develop training and tools for building operators and maintenance workers
• For buildings with annual energy expenditures of $1M or more
• 50% cost share of project costs, with cap of $400K

> For more information, visit nyserda.ny.gov/All-Programs/Programs/Clean-Energy-Workforce-Development/Building-Operations-and-Maintenance-Program
How to Access Each Multifamily Program

- Flexible Technical Assistance (FlexTech) Program: nyserda.ny.gov/flextech
- On-site Energy Manager (OsEM): nyserda.ny.gov/osem
- Multifamily Performance Program (MPP): nyserda.ny.gov/MPP
- RetrofitNY: nyserda.ny.gov/retofitny
- Real Time Energy Management (RTEM) Program: nyserda.ny.gov/rtem
- Building Operations and Maintenance Workforce Development Training Program: nyserda.ny.gov/All-Programs/Programs/Clean-Energy-Workforce-Development/Building-Operations-and-Maintenance-Program
- NY-Sun: nyserda.ny.gov/solar
