

1/29/2016

Dear Contractors,

Uncommitted megawatts remain in various MW Block sectors, regions and blocks, due to past solar project cancellations. We are now adding those uncommitted megawatts to the current MW Block within the same sector and region so they will be available for use.

**The following current block is affected:**

- Long Island Residential (Block 4): Increase from 68 MW to a total of 77 MW

The NY-Sun team will continue to monitor the progress of canceled projects and make additional changes as necessary in the same manner as described above. The updated dashboard can be found here: <http://ny-sun.ny.gov/For-Installers/Megawatt-Block-Incentive-Dashboard>

Thank you,

NY-Sun Team

**About NY-Sun**

NY-Sun, a dynamic public-private partnership, will drive growth in the solar industry and make solar technology more affordable for all New Yorkers. NY-Sun brings together and expands existing programs administered by the New York State Energy Research and Development Authority (NYSERDA), Long Island Power Authority (LIPA), PSEG Long Island, and the New York Power Authority (NYPA), to ensure a coordinated, well-supported solar energy expansion plan and a transition to a sustainable, self-

sufficient solar industry. To learn more about NY-Sun, visit [ny-sun.ny.gov](http://ny-sun.ny.gov)
