

## **Notice of Webinar on November 10**

On April 24, 2014, the New York State Public Service Commission issued an Order in Case 03-E-0188 authorizing funding and implementation of the Solar Photovoltaic MW Block Program to support the NY-Sun Program. As part of the Order, it directed NYSERDA, in consultation with the Department of Public Service (DPS), to prepare a report which evaluates the current net metering policies in the context of the potential costs and benefits associated with the NY-Sun Program. The Commission also requested that the report help inform the “Reforming the Energy Vision” (REV) process, initiated separately by the Commission in Case 14-M-0101.

To advance the Commission’s direction, NYSERDA will be hosting a webinar on November 10 from 1:00 pm to 2:00 pm to provide stakeholders with an overview of the objectives and analytical framework of the study and schedule of milestones for stakeholder input.

Call-in information and Webex link are provided below.

### WebEx Event Information

Event: Net Metering Study

Date and time: Monday, November 10, 2014 1:00 pm Eastern

Standard Time (New York, GMT-05:00)
