Estimated Year 2 Performance Payment	-	\$XXX,XXX.XX
Total NYSERDA Incentive (Not to Exceed)	Confirm incentive information is correct and includes all adders before submitting -	\$X,XXX,XXX.XX

The Contractor agrees that by the act of submitting a Project Application(s) to the NY-Sun Program that Contractor confirms and agrees that the Project Application submitted under NY-Sun shall comply with the requirements of the Program, the applicable Program Manual, with the terms and conditions of the Participation Agreement, including the Addendum, and with all applicable codes, accepted industry standards and best practices.

By submitting this Project Application, the Contractor hereby attests that there is a fully-executed, binding financial agreement that includes a signed Addendum to the Customer Agreement between the Contractor and Customer (or project sponsor for community distributed generation) to construct the PV project that will receive incentive funding and/or financing through this application. The Contractor and/or Builder acknowledges and agrees to produce any/all documents upon NYSERDA's request.

The Contractor attests that applications have been submitted for all jurisdictional permits required for construction of the PV project that will receive incentive funding through this application.

The Contractor attests that a nonresidential energy assessment has been performed and the findings have been shared with the customer.

The Contractor and/or Builder attests to provide NYSERDA with access to web-based production monitoring systems, upon request.

The Contractor further attest that the customer signature appearing below is the true and genuine signature of the customer and that it was affixed to this document on the date indicated.

By signing below, the customer attests and confirms that the above statements are true and accurate.

The incentive amount is based on the current incentive level offered at time of submission. That may or may not be different from the amount on this application form. The award letter with the correct and approved incentive amount will be issued at time of NYSERDA approval.

This is a legally binding agreement; is it advised to read this form carefully and to consult with an attorney and/or tax professional before signing below.

This assignment is for payments only. As the Contractor on record for this application, I certify that all information provided in this Application, including any attachments, is true and correct to the best of my knowledge. I have also reviewed and agree to the terms and conditions set forth in the PV Program Manual(s) and the Participation Agreement. I understand that by submitting this application I, as Contractor (payment assignor), am directing that all incentive amounts be paid directly to the Payment Assignee indicated on this Application, and that I permanently relinquish any right to the payment of incentives that may become payable by NYSERDA under this project application. The assignment of payments will not become effective unless this Statement is signed by the Customer or the Community Distributed Generation Project Sponsor; the Customer is the party whose grid supplied energy is offset by the electricity generated by the PV System.

Contractor acknowledges and confirms that the execution of this assignment does not relieve Contractor from performance of its duties and obligations under the PV Program Manual(s) and the NY-Sun Incentive Program - Participation Agreement with respect to the project listed on the project application associated with this payment assignment, which shall include but not be limited to the maintenance of insurance and all deliverables and

reporting.

Payment Assignee understands that payments by NYSERDA are conditioned on NYSERDA's receipt of documentation regarding the development of the system and its metered electrical performance data over the initial three-year period of operation. Payment Assignee understands and agrees that NYSERDA cannot and will not make any payment absent such documentation and metered electrical performance data, and Customer and Payment Assignee acknowledge and confirm that Customer and Payment Assignee understand these requirements and have had the opportunity to consider and discuss with the Contractor, an attorney and/or tax professional.

Payment Assignee acknowledges that payments made by NYSERDA to the Payment Assignee will be reported by NYSERDA to taxing jurisdictions and will constitute income to the Payment Assignee. NYSERDA is required under tax regulations to report, via a 1099-G information return, payments made to outside entities. NYSERDA will report all payments made to the Payment Assignee using form 1099-G and the tax identification number provided by Payment Assignee.

The Contractor further attests that the signatures appearing below are the true and genuine signature of the customer or project sponsor and the payment assignee and that they were affixed to this document on the date indicated.
