

Renewable Heat NY Residential Pellet Stove Incentive Program

Visit nyserdera.ny.gov/renewableheatny/pelletstoves for details on incentives, income eligibility, applying for financing, and eligible pellet stoves. If requesting either financing or a subsidy, you must include an Income Qualification and/or Loan Qualification pre-approval letter from Energy Finance Solutions (EFS) with application.

Project incentives will be reserved for 60 days on a first-come, first-served basis after NYSERDA's approval of this application and is subject to availability of funds.

HOMEOWNER INFORMATION

Name Daytime Phone Number (With Area Code)

Address Email Address

City State Zip

Incentive:

Please indicate which incentive amount should be paid to your contractor to reduce your out-of-pocket expense. Where recycling is required, the incentive will be paid to the contractor only upon proof of proper disposal. The contractor will keep the payment for the scrap metal.

Select one : \$1,500 Incentive \$2,000 Incentive \$2,500 Incentive

Financing

By checking the box below, I am stating I am interested in Green Jobs - Green New York (GJGNY) financing available through the NYSERDA Program for the remainder of my project.

Interested in GJGNY Financing (Participating Contractor will upload financing tool with Project Application).

By signing below, I affirm that I own the property, that it is my primary residence, and it does not have access to natural gas service.

I also agree to recycling of an existing stove if it applies.

By participating in the Renewable Heat NY Residential Pellet Stove Incentive Program, I also agree to participate in future program evaluation. In addition, 5% or more of this Participating Contractor's project completions will be selected for Quality Assurance (QA) review; my project may be selected for QA review.

Homeowner Signature Date If resubmitted include Reservation Number

Contingent upon: If this customer is applying for a \$2,000 incentive based on financial qualification and the household does not already have a qualification letter, it is possible this customer may not qualify.

Participating Contractors agree not to sign an Agreement/Contract with a homeowner who is or will be applying for income or loan qualification until an acceptable letter of qualification is provided, or the Agreement/Contract must state "Contingent upon approval of income and/or loan qualification" for the specified amount. Any Participating Contractor not in compliance will be subject to disciplinary action, potentially including repayment of incentives.

EXISTING WOOD OR PELLET STOVE OR INSERT BEING RECYCLED

Homeowner agrees that Participating Contractor will recycle unit (if applicable).

CLARIFICATION OF ADDITIONAL REQUIREMENTS

By checking the boxes below, the Participating Contractor agrees to:

Income Eligibility

Upload Energy Finance Solutions (EFS) proof of Income Qualification with this application

Recycling

Upload a legible itemized recycling receipt with the Program Completion Package.

When recycling applies:

The Participating Contractor agrees to the proper disposal of the existing stove or insert (with metal firebox) at an approved regional recycling center. When recycling applies, no rebate payment will be made without proper recycling receipt.

By signing below, the Participating Contractor agrees to perform this installation including customer interaction, according to the terms outlined in the RHNY Residential Pellet Stove Incentive Program Participation Agreement and Program Manual.

*The amount of incentive (including recycling) cannot exceed the Total Project Cost.
