

**Vehicle Manufacturer Authorization**

The New York Truck Voucher Incentive Program (NYTVIP or the Program) enables approved commercial vehicle dealers (Contractors) that work directly with original equipment manufacturers (OEMs) or upfit/retrofit manufacturers (URMs) to offer incentives to fleet customers to reduce the purchase price of approved vehicles. Vehicles receiving incentives through the Program must be sold by a participating Contractor. OEMs and URMs may be Contractors; Contractors that are not OEMs or URMs must provide documentation demonstrating they are an authorized third-party vendor of vehicles manufactured by an OEM or URM whose vehicles are approved for participation in the Program.

**Original Equipment Manufacturer or Upfit/Retrofit Manufacturer**

I attest that the Contractor listed below is an authorized third-party vendor of vehicles manufactured by the OEM/URM listed here. I attest that I am authorized by the OEM/URM to verify this information.
