

SMALL PROJECT COMPLETION FORM

Ground Source Heat Pump Rebate

NYSERDA

Customer Name:

Project Number:

SITE INFORMATION

Existing primary heating fuel _____ Existing heating system type _____

Existing cooling system type _____ Prior year annual fuel use (in MMBtu or KWh) _____

Existing distribution system _____ Was envelope improved? ☐ Yes ☐ No

Describe envelope improvements:

PROJECT INFORMATION

Project type _____

Project narrative (see Program Manual for requirements for heat pump replacement systems):

Loop field type _____ Number of boreholes _____

Total loop field length/depth (feet) _____

Heat pump make _____ Heat pump model _____

Pumping power (Watts per ton) _____

Design minimum entering temperature of heat transfer fluid, heating season (Deg F) _____

Design maximum entering temperature of heat transfer fluid, cooling season (Deg F) _____

Antifreeze type _____ Antifreeze concentration (% by weight) _____

GSHP SYSTEM COST (US \$)

Heat pump and accessories _____ Indoor installation _____

Loop field materials and installation _____ Other _____

SUPPORTING DOCUMENTS (ATTACH EACH IN SALESFORCE)

Was design software used? ☐ Yes ☐ No Will performance data be collected? ☐ Yes ☐ No

Was the customer provided with an estimate of cost savings/payback? ☐ Yes ☐ No
