Final Report

Prepared by:

New York State Energy Research and Development Authority

Albany, NY

This report provides metrics information through December 31, 2025 for all non-solar technologies supported by New York State Energy Research and Development Authority's (NYSERDA) legacy Renewable Portfolio Standard (RPS) Customer-Sited Tier (CST) program. For ease of reference, the report also includes the December 31, 2025 financial status for the totality of the RPS, which includes financial status information specific to these non-solar CST technologies.

NYSERDA's continued support for CST renewables is encompassed in the Clean Energy Fund (CEF), including NY-Sun for solar photovoltaic (PV). Separate reporting on the CEF including the financial status, can be found on NYSEDA's website.¹

Separate reporting will also cover NYSEDA's legacy RPS Main Tier metrics and financial status.
