## Learn how to apply the energy code to active projects in your community

Buildings represent approximately 60% of New York's total energy consumption, and there is significant opportunity for energy savings through improved energy code compliance. The Energy Code is a minimum building standard for energy efficiency, applicable to new construction and renovation of commercial and residential buildings in New York State.

The Energy Code is a complex document and one of nine building codes in New York State, which can make implementation and enforcement complex and time consuming. This training focuses on what code enforcement officials need to know about the Energy Code in the context of its practical application on active construction projects.

## Earn recognition and unlock access to grant funding

NYSERDA's Clean Energy Communities Program recognizes and rewards local governments for their clean energy leadership. By completing four High Impact Actions, you can earn the Clean Energy Community designation as well as grant funding to support additional clean energy projects.

Each High Impact Action is worth points collected upon completion of the action. The points you earn count toward unlocking access to point-based grant funding. Certain High Impact Actions are also eligible for additional Action Grants. You can earn 200 points toward a grant by completing this action.

Visit [nyserdera.ny.gov/cec](https://nyserdera.ny.gov/cec) to review the full list of High Impact Actions and available grants.

## Ready to get started?

Dedicated and knowledgeable Clean Energy Communities Coordinators are available to assist municipal staff as they implement this action. Your regional Clean Energy Community Coordinator will review your goals and help you determine which actions are best for your community and how to access grant funding.
