

Workforce Development & Training

The Partner Connector Platform

**Establish
beneficial
partnerships
with fellow
organizations that
are passionate
about clean
energy workforce
development
and training.**

Introducing NYSERDA's New Partner Connector Platform

- The Partner Connector is an online platform that facilitates connections among training providers and organizations that provide clean energy training, wraparound support, job placement, and other related services. These connections can foster partnerships and collaborations on workforce funding opportunities.
- The directory lists organizations that provide different workforce development and training services in regions across New York State. Use the filter options for identifying specific services provided and regions served.

Get Involved

- New to the platform? [Click here to register.](#)
- If your organization is already registered, please [visit the platform](#) to start connecting.

Check back regularly to connect with the latest platform members.

**DISCLAIMER: NYSERDA does not engage in matchmaking or other activities to influence the preparation of applications.*

Looking to connect with partners to apply for NYSERDA funding? Register for NYSERDA's Workforce Development & Training Partner Connector. nyserdera.ny.gov/partner-connector
