1	Introduction, Research Questions and Methods.....	1
1.1	Research Questions.....	1
1.2	Methods	2
2	Energy Storage Market Changes between 2010 and 2015.....	4
2.1	Changes in Key Market Actors.....	5
2.2	Changes in Technology, Demand, and Market Direction	7
2.3	Changes in Policy	8
3	NY-BEST Development.....	11
3.1	NY-BEST Membership Trends	11
3.2	NY-BEST Finances	14
3.3	Relationship with Non-Member Organizations.....	15
4	Results of NYSERDA-Funded NY-BEST Member Projects.....	17
4.1	History of Funding Projects – Objectives, Changes in Funding Priorities.....	17
4.2	Status of NY-BEST Projects in 2015	17
4.3	Technology Readiness Level Advancement Trends.....	18
4.4	Influence on Other Research and Development	19
5	Overview of NY-BEST Indicators of Success.....	21
5.1	Overview of NY-BEST Logic Model.....	21
5.2	Logic Model Indicators That Were Measurable in the 2015 Energy Storage Market.....	24
5.2.1	Short-Term Outcomes Related to Information and Recruitment Activities.	24
5.2.2	Short-Term Outcomes Related to Technology Commercialization Activities.....	25
5.2.3	Medium-term Outcomes	26
5.2.4	Long-Term Outcomes.....	27
6	Progress Toward Short-Term, Medium-term, and Long-Term Outcomes	28
6.1	NY-BEST Activities and Outputs	30
6.2	Short-term Outcome Progress.....	35
6.2.1	Increased Member/Non-Member Satisfaction with NY-BEST Offerings ...	35

6.2.2	Valuable supply chain and resource information is shared and put to use among members.....	36
6.2.3	Formation of productive collaborations and partnerships	37
6.2.4	Members improve strategies and successfully pitch ideas	38
6.2.5	High quality, targeted R&D accelerates product development	38
6.2.6	Energy storage technologies are proven in New York	39
6.2.7	Policy makers and public favor energy storage industry	39
6.3	Medium-term Outcome Progress.....	40
6.3.1	Outside investors provide follow-on funding to NY-BEST members	40
6.3.2	Energy storage technologies are commercialized	40
6.3.3	Regulatory and policy barriers to energy storage are reduced	42
6.4	Long-term Economic Impacts	44
6.4.1	Thriving cluster of energy storage researchers and companies in New York.....	44
6.4.2	Energy storage industry brings jobs and other economic benefits to New York	45
6.4.3	New York becomes a global leader in energy storage	46
6.4.4	Fossil fuel emissions decline as a result of energy storage technologies commercialized and in use	47
7	Conclusions.....	48
7.1	What was the state of the energy storage market when NY-BEST launched in 2010?.....	48
7.2	In 2015, to what extent and in what ways was NY-BEST viewed as a domestic and/or international leader in supporting the energy storage industry? How had this changed, if at all, since 2010?.....	50
7.3	As of 2015, what were the outcomes of projects that received awards through NY-BEST?.....	51
7.4	In 2015, how did the program stand relative to its definition of success?.....	51
7.5	As of 2015, what impact had the Battery and Energy Storage Technology Test and Commercialization Center (BTCC) and Battery Prototyping Center (BPC) had on NY-BEST members' organizations and technologies tested at the BTCC and BPC labs?	53
8	Recommendations.....	55
8.1	Recommendation 1	55

8.2	Recommendation 2	55
8.3	Recommendation 3	55
9	References.....	56
