Flexible Technical Assistance (FlexTech) Program Addendum Extension - Program Opportunity Notice (PON) 4192

New York State Energy Research and Development Authority

Dear Consultants & Customers,

As New York State recovers from the COVID-19 pandemic under Governor Cuomo's strong leadership, NYSEDA continues to offer solutions that can support our partners and can help build our clean energy economy.

As you may be aware, the Flexible Technical Assistance (FlexTech) Program Opportunity Notice (PON) 4192 offers cost-shared technical services to help customers make informed energy efficiency and clean heating and cooling decisions. For applications submitted through December 31, 2020, NYSEDA currently offers up to 100 percent study cost-sharing upon installation of measure(s) recommended through a NYSEDA-approved FlexTech study. To continue to provide you with assistance during this challenging time NYSEDA is extending this offer through December 31, 2021, as outlined in the updated [PON 4192 Program Addendum](#).

All other program eligibility requirements, program parameters, and limitations as outlined in PON 4192 remain the same.

Summary of Program Changes

The Flexible Technical Assistance (FlexTech) Addendum to PON 4192 has been extended from December 31, 2020 to December 31, 2021.

Up to 100 Percent Study Cost-Sharing with Proof of Installation

- NYSEDA will reimburse FlexTech customers the remaining portion of their eligible energy efficiency or clean heating and cooling study costs upon installation of measure(s) recommended through an approved FlexTech energy study.

- Reimbursement amount will be paid at the lesser of:
 - Balance of eligible study costs, not to exceed 100% of the total qualifying study cost; OR
 - Installed measure costs

Reimbursement Eligibility

The following changes have been made to the reimbursement eligibility under the Flexible Technical Assistance (FlexTech) Addendum to PON 4192, effective for applications submitted on or after January 1, 2021:

- Reimbursement is not available for the installation of lighting or lighting control measures.
- Multifamily facilities:
 - Must evaluate electrification (i.e. clean heating and cooling measures) or electrification readiness as part of the NYSERDA-approved FlexTech scope of work in order to be eligible for reimbursement.
 - Level 1+ studies of multifamily facilities are ineligible for reimbursement.

Please visit the [FlexTech Program \(PON 4192\) Solicitation Detail Page](#) for the complete Addendum update with PON 4192, eligibility, and requirements.

Participating Consultants and Customers must comply with all Executive Orders addressing the COVID-19 pandemic, and in all events, are expected to continue to comply with all relevant State, Federal, and local rules as well as state-issued return-to-work guidance.

Have Questions or Want to Learn More?

An update will be provided if there is a change to this offering and as always, please reach out to us with any questions or concerns. Our staff is here to help.
