The What & Why

› This program assists low income HEAP qualified customers to convert to natural gas and install high efficiency heating equipment that will decrease their heating costs for many years.

- Natural gas may save customers up to 50% of the cost of heating with oil or propane
- No more missed or unexpected deliveries
- Pay for product after it’s used; not COD
- Increases value of property & makes it more marketable
- Burns cleaner than oil & equipment needs less maintenance & repair
- Many of your customers really need to replace inefficient heating equipment
- Due to an abundance of domestic natural gas, it’s a great long term investment with benefits for 20-30 years
Sub-Grantee certifies that:

- Customer lives within the Corning Natural Gas franchise area
- Natural gas is available to the customer’s home—Call Katrina (607) 936-3755 ext. 238
- Customer is HEAP “qualified”, but not necessarily HEAP certified
- Rebates will be paid to sub-grantees
The How—Before Installation

› If gas is available, submit Application for Service Installation to Katrina at Corning Natural Gas

› Application MUST be completed and signed by homeowner and received before we go any further
The How—After Installation

› Sub-grantees will submit two rebate forms to Corning Natural Gas Corporation

› Both rebates should have invoice attached

› Customer invoice to include:
  – Quantity, Manufacturer & Model Number of installed equipment
  – Labor and Material Costs & show zero balance due from customer
  – Invoice must have labor and equipment cost broken down separately
  – Must show “ZERO” balance due from customer
  – Sub-grantees will receive check from GSBC from CNG with in 8-12 weeks
  – Both completed rebate forms must be submitted to Marie Husted—Corning Natural Gas Corporation, 330 W. William Street, Corning, NY 14830.
Common Errors

› These errors commonly occur on rebate applications and/or supporting documentation and can delay rebate processing:

› Invoice Errors
  ▪ Missing Labor Cost
  ▪ Missing Paid in Full
  ▪ No Invoice
  ▪ Missing Invoice date
  ▪ Self-installation
  ▪ Invoice out of date
  ▪ Too much information of piping and other small parts creates a cumbersome invoice

› Application Errors
  › Missing Model Number
  › Invalid Model Number
  › Ineligible Customer Account Number
  › Missing Customer Signature

Double check your application before submitting!
LIECR Rebate Form

THESE MUST BE COMPLETED:

- Customer Information
- Payee Name
- Equipment replaced
- Contractor Information

WHO TO CONTACT

› Contact Marie Husted at (607) 936-3755 ext. 219 or at mhusted@corninggas.com
